Hi Chris! Happy New Year!

I saw the article today on Kristi not recusing herself.

As I share with you before and as the recent vote clearly indicated, the majority of South Dakotans do not want the pipeline. The tax credits Summit will receive is just another wealth transfer from the taxpayers to corporate greed!

I hope you all deep six it again this time.

I suppose they will just use their billions until they get it through and then salivate over the tax credits they will get.

Am I missing something?
