We are writing to express our opposition to the reapplication of Summit Carbon Solutions CO2 pipeline project in SD.

We are lifelong McPherson County residents and 4th generation farmers. Our son, daughter-in-law, and grandson are 5th and 6th generations farming alongside us. We have carried on the traditions of those family before us (since 1882) to be good stewards of the land and animals and respect Mother Nature.

We object to a hazardous material like CO2 pumped under a great pressure across any land in our great state.

We object to the company not honoring the mandate by the voters of SD to honor local county ordinances in their reroute selection.

For this project, please vote no.
