Subject: Re:[EXT] Corrections to RL21 Letter of Support

Regarding Docket HP24-001:

My name is Ron Fischer from [REDACTED] Olivet, SD 57052 and am a shareholder in Glacial Lakes Corn Processors. My dad, my brothers, and now my nephews are farmers in Hutchinson County and have been all their lives. Most of them have stock in different ethanol plants which include GLCP. We know the value of having another source of revenue for our corn when prices are low. I support RL21 and Summit Carbon Solutions because I believe it would help expand the ethanol industry. We grow a lot of corn in our state and by using it as a fuel additive South Dakota benefits, farmers benefit, and we lower the carbon footprint in the process.

I am asking you to please support the carbon pipeline. We need this, for all of South Dakota!

Respectfully,

Ron Fischer
