Concerning the Venture Complaint case, Ms. Rogers and I discussed it in a call today. We believe the matter may have been resolved in a true up between our clients after resolution of a suspension case. WE are both going to check on this issues.

I have no idea where the parties are with this case but I am seriously considering putting the docket on the next agenda. The parties can explain to the Commissioners why this 2005 docket, which has had nothing filed in it since 2006, is still an open docket in 2010.

The same holds true for CT05-002.
