This agreement will allow Intercounty Electric to service a grain handling/crop drying service in the southeast quarter of Section 7, Township 108 North, Range 54 West. This service lies within Sioux Valley's territory but we feel the consumer's interests will be better served with service from Intercounty in this instance.

JOINT REQUEST FOR ELECTRIC SERVICE TERRITORY EXCEPTION

Sioux Valley Empire Electric Association (SVEEA) and Intercounty Electric Association (Intercounty) jointly request an exception to the existing electric service territorial agreement to permit Intercounty to provide electric service to Donald Bickett for a grain handling/crop drying service in the southeast quarter of Section 7, Township 108 North, Range 54 West. A drawing of the service site is attached for your information.

Representatives of both SVEEA and Intercounty have concluded that, in this instance, the customer's interests will be best served by receiving service from Intercounty and have agreed that we should request an exception to the existing territorial agreement.

We have also agreed that each such instance where territory boundaries become a factor should be dealt with on an individual basis.

This consent on the part of SVEEA is limited to the said service to Donald Bickett and will automatically terminate upon removal or abandonment of such service.

This exception is not to be construed as having any impact upon or indicating a desire to change the service areas assigned by the South Dakota Public Utilities Commission.

This agreement is subject to the approval of the South Dakota Public Utilities Commission.
