RE: Joint Request for Exception to Assigned Service Territory between Watertown Municipal Utilities Department and Codington Clark Electric Cooperative

Dear Patty:

Watertown Municipal Utilities has been asked to serve a new load adjacent to our territorial service area. This new load will be a metal building that will be used as a garage and residence which is located in the Codington Clark Electric Cooperative service territory.

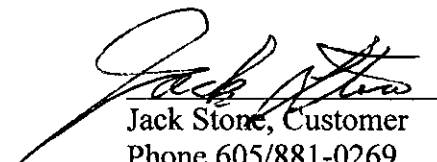

This new load is located within approximately 300 feet of the Municipal Utilities existing service line and is within approximately $\frac{3}{4}$ mile of the Co-ops nearest service line. After discussion with Gene Ward, General Manager of the Co-op it was agreed that the logical choice would be for the Municipal Utilities to serve this customer.

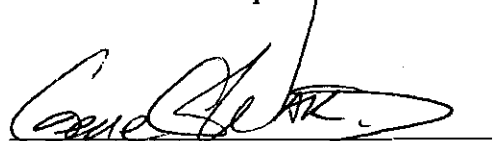

The customer is aware of the service boundary and is agreeable to the change. The structure is located in the South $\frac{1}{2}$ of Section 24 in T117N - R53W in Codington County and is adjacent to the service territory boundary.

Thank you for your consideration.

Sincerely,

Geoff Helg
General Manager
Watertown Municipal Utilities
