Dear PUC,

RE: Black Hills Rate Increase

I'm a 72 year old, on Social Security and have a part time job. With Taxes, insurance and all our city rates that have gone up this past year, plus medications, if they raise our power bill, I am one of your seniors, that will have to give up food or medications so I can keep my lights on.

Please consider this huge increase - and deny their request.

Thank you for your help.

Sincerely,

Margaret Digmann
