

# I Table of Contents

- 1 Table of Contents ..... 1-i
- 2 Preface ..... 2-1
- 3 Plan Cross-Reference ..... 3-1
- 4 Resource Plan Summary ..... 4-1
  - Resource Plan Objectives ..... 4-1
  - Load Forecast ..... 4-2
  - Future Resource Needs ..... 4-3
  - Resource Plan Development ..... 4-4
  - Potential Resources ..... 4-7
  - Preferred Resource Plan ..... 4-8
  - Preferred Plan is in the Public Interest ..... 4-13
  - Preferred Plan Rate Impacts ..... 4-17
  - Five-Year Action Plan ..... 4-19
  - Conclusion ..... 4-20
- 5 Forecast and Capability ..... 5-1
  - Long Range Forecast ..... 5-1
  - Energy Forecast ..... 5-1
  - Demand Forecast ..... 5-4
  - Load Management Forecast ..... 5-6
  - Development of Planning Scenarios ..... 5-8
- 6 Existing Resources ..... 6-1
  - General Discussion ..... 6-1
  - Hydro ..... 6-5
  - Peaking Facilities ..... 6-7
  - Base Load Resources ..... 6-9
  - Radio Load Management System ..... 6-14
  - Transactions ..... 6-16
  - Qualifying Facilities & Cogeneration ..... 6-18
  - DSM Programs ..... 6-20
  - Mid-Continent Area Power Pool/Midwest Reliability Organization ..... 6-24
  - Midwest Independent Transmission System Operator (MISO) ..... 6-25
  - Transmission Facilities ..... 6-29

## I-ii Table of Contents

---

7	Plan Development .....	7-1
	Plan Objectives .....	7-1
	Planning Tools .....	7-1
	Planning Process .....	7-2
8	Potential Resources .....	8-1
	General Discussion .....	8-1
	Capacity Purchases .....	8-2
	Supply-Side Generation .....	8-2
	Conservation .....	8-13
9	Preferred Resource Plan.....	9-1
	General Discussion .....	9-1
	Preferred Resource Plan.....	9-1
	Environmental Externality Optimization Results .....	9-6
	Big Stone Plant II Sensitivity .....	9-7
	Wind Sensitivity .....	9-8
	50 and 75% Conservation and Renewable Plans .....	9-9
	Preferred Plan is in the Public Interest.....	9-12
	Five-Year Action Plan .....	9-16
10	Renewable Energy Objective.....	10-1
	Minnesota Renewable Energy Objective.....	10-1
11	Contingencies.....	11-1
	General Discussion .....	11-1
	Low Load Growth Scenario .....	11-1
	High Load Growth Scenario .....	11-4
	Sudden Large Load Addition.....	11-7
	Failure or Sudden Retirement of Existing Generation.....	11-8
	Development of Large Qualifying Facility .....	11-10
	Increased Competitive Environment.....	11-11
12	Environmental Issues .....	12-1
	General Discussion .....	12-1
	Environmental Externalities.....	12-1
	Sulfur Dioxide and Nitrogen Oxides .....	12-2
	Hazardous Air Pollutants .....	12-4
	Regional Haze Program .....	12-7
	National Ambient Air Quality Standards.....	12-8
	Pending Federal and State Emissions Reduction Actions .....	12-9
	Minnesota Statutes §216.1692 Emissions Reduction Rider .....	12-11

13 Minnesota Electric Utility Annual Report ..... 13-1

**Tables**

Table 3-A	Cross-Reference to 2002 Resource Plan Short Range Action Plan Items .....	3-2
Table 3-B	Cross-Reference to Commission’s Order From 2002 Resource Plan.....	3-2
Table 3-C	Cross-Reference to Requirements for Resource Plan Filing Contents .....	3-4
Table 4-A	2006 - 2020 Base Case Planning Scenario L&C Prior to Resource Plan Information .....	4-5
Table 4-B	2006 - 2020 Preferred Resource Plan Base Case Planning Scenario (MW) .....	4-9
Table 4-C	Present-Worth of Revenue Requirements for Base Case Scenarios .....	4-11
Table 4-D	Planned Renewable Energy Objective Compliance.....	4-12
Table 4-E	Comparison of 50% and 75% Renewable Plans to Base Case (Present Worth) .....	4-15
Table 4-F	Five-Year Action Plan Activities .....	4-19
Table 5-A	Otter Tail Power 2004 System Input Forecast (GWh).....	5-2
Table 5-B	2004 Energy Forecast Statistics - Average Compounded Growth Rates.....	5-3
Table 5-C	Energy Forecast Sensitivity Results - 2004 Econometric Forecast - % Dev. From Base...	5-3
Table 5-D	2004 Load Forecast Seasonal Peak Demands – Uncontrolled Load by MAPP Season .....	5-4
Table 5-E	Peak Forecast Sensitivity Results - 2004 Econometric Forecast - % Dev. From Base .....	5-6
Table 5-F	MW Limits of Load Management Control by Month 2008 – 2020.....	5-11
Table 5-G	Planning Scenarios.....	5-13
Table 5-H	2006 - 2020 Low Growth Planning Scenario L&C Prior to Resource Plan Information .	5-10
Table 5-I	2006 - 2020 Base Case Planning Scenario L&C Prior to Resource Plan Information .....	5-11
Table 5-J	2006 - 2020 High Growth Planning Scenario L&C Prior to Resource Plan Information	5-12
Table 6-A	Actual Conservation versus 2002 IRP Planned Conservation .....	6-20
Table 6-B	Circuit Miles of Transmission by Voltage.....	6-29
Table 9-A	2006-2020 Potential Future Resources – Base Case Planning Scenario .....	9-2
Table 9-B	Estimated kWh Savings Due to Conservation .....	9-5
Table 9-C	Present-Worth of Revenue Requirements for Base Scenarios.....	9-7
Table 9-D	Analysis of 50% Conservation and Renewable Resource Plan Base Case Scenario .....	9-10
Table 9-E	Analysis of 75% Conservation and Renewable Resource Plan Base Case Scenario .....	9-11

## I-iv Table of Contents

---

### Tables (Continued)

Table 9-F	Comparison of 50% and 75% Renewable Plans to Base Case Preferred Plan .....	9-12
Table 9-G	Five-Year Action Plan Activities .....	9-16
Table 10-A	Planned Renewable Energy Objective Compliance.....	10-2
Table 10-B	Existing and Planned Renewable Energy Objective Resources .....	10-3
Table 11-A	2006 - 2020 Potential Future Resources - Low Load Growth Planning Scenario (MW). 11-2	
Table 11-B	Comparison of Low Load Growth Scenario Direct Costs .....	11-4
Table 11-C	2006 - 2020 Potential Future Resources - High Growth Planning Scenario .....	11-5
Table 11-D	Comparison of High Load Growth Planning Scenario Direct Costs .....	11-7
Table 12-A	Mercury Emissions .....	12-4

### Graphs

Graph 4-1	Base Forecast System Input Energy, GWh 1999 - 2020.....	4-2
Graph 4-2	Unmanaged Peak Demand Forecast, MW 1999 - 2020 .....	4-3
Graph 4-3	Preferred Resource Plan Resources 2006 – 2020 .....	4-14
Graph 4-4	Preferred Resource Plan Rate Impacts.....	4-18
Graph 5-1	System Input Energy, GWh 1999 - 2020 .....	5-3
Graph 5-2	Summer Season Uncontrolled Peak Demand, MW 1999 – 2020 .....	5-5
Graph 5-3	Winter Season Uncontrolled Peak Demand, MW 1999 – 2019 .....	5-5
Graph 6-1	2004 - 2005 Winter Season Capacity Resources – 911.2 MW .....	6-1
Graph 6-2	2004 Summer Season Capacity Resources – 834.2 MW .....	6-2
Graph 6-3	2004 - 2005 Winter Season Capacity Resource by Fuel Type .....	6-2
Graph 6-4	2004 Summer Season Capacity Resource by Fuel Type .....	6-3
Graph 6-5	2004 System Input by Resource – 4,075,272 MWh .....	6-4
Graph 6-6	2004 System Input by Fuel Type – 4,075,272 MWh.....	6-4
Graph 9-1	Preferred Resource Plan Resources 2006 – 2020 .....	9-14
