Dear Mr. Zuehlke:

Re: a/c 23565
Three phase power

This letter is to confirm our conversation of March 21, 2014 regarding the three phase load at your farm located in the SW ¼, SW ¼ Sec 21, Twp 127, R 58 of Marshall County, SD.

Otter Tail Power Company has been getting three phase power from Lake Region Electric Co-op to supply your three phase needs. This was to have been a temporary solution. The cost to extend three phase power from Otter Tail Power Company is estimated to be \$275,000. Lake Region Electric Co-op has three phase across the road. We discussed extension costs, the cost difference between Otter Tail Power Company and Lake Region Electric Co-op. At that time, you elected to go with Lake Region Electric Co-op as your provider for three phase service. Single phase service will be retained by Otter Tail Power Company.

By signing below, you are confirming the decision made on March 21, 2014.
