Subject: Xcel rate increase

Sent: Jun 23, 2014 10:43 PM

I am writing to ask you to deny Xcel the rate increase that they are purposing. Didn't they just get a rate increase last year? I would ask all three members of the PUC to take into consideration the lack of wage increases particularly in the non-profit sector (where I am employed) and the increasing difficulty to manage increasing grocery, fuel, and energy expenses with paychecks that continue to not get any bigger. Please pass this e-mail on to the other members of the PUC. Thank you for taking the time to read this e-mail.

Sincerely,

Josh Reinfeld
