My commission expires

July 17, 24 L20877555
PUBLIC HEARING
On behalf of Black Hills Power, Inc. (Black Hills Power), notice is hereby given of an upcoming public meeting convened by the South Dakota Public Utilities Commission (SD PUC) on the Facility

Permit application filed for the proposed Teckla-Osage-Rapid City 230 KV transmission line and associated substation modification.

Pursuant to law, the SD PUC will hold a public meeting to take comments from the public. The meeting will be held:

Monday, August 25, 2014
6:30 P.M. MDT
Ramkota Conference Center
2111 N. LaCrosse St.
Rapid City, SD 57001

Black Hills Power will give a short presentation designed to give context to the comments of the public regarding the proposal.

Most of the meeting will be reserved for accepting public comments on the proposal. Learn more about the proposal by accessing a copy of the Facility Permit application online at the SD PUC website:

<http://www.puc.sd.gov/Dockets/Electri/2014/e114-061.aspx>

Under state law, (SDCL 49-41B) Black Hills Power must have a permit from the SD PUC prior to beginning construction. Accordingly, the SD PUC will hold further formal proceedings concerning the application. If you wish, you may have the right to become a formal party.

The formal hearing will be unlike the public meeting listed above, and instead is considered by the SD PUC to be an "advisory proceeding," at which the rules of evidence will be applied. Any formal party has the right to be present and to be represented by a lawyer. Any formal party could appeal from an adverse decision of the SD PUC, to Circuit Court, and the state Supreme Court.

Those rights would be forfeited if not exercised.

The date and place for that formal hearing has not yet been set. At the hearing, witnesses will provide sworn testimony and be examined by lawyers for the parties. Additionally, there will be intermediate steps taken prior to that hearing for the parties to prepare, including discovery in the form of written interrogatories and depositions.

The SD PUC has a professional staff of lawyers and analysts and engineers to review the application, engage in discovery and take evidence. The SD PUC staff may also contract with a number of outside expert witnesses. Those people will help staff review the application and will provide evidence to commissioners, on behalf of the public. The cost of the staff's time and their expert witnesses is paid for by Black Hills Power, as required by law.

Black Hills Power filed a copy of the Facility Permit application with the Pennington County Auditor; it can also be viewed there.

(Published twice at the total approximate cost of \$120.96).
