PRELIMINARY STATEMENT

TERRITORY SERVED

Northwestern Public Service Company provides electric service at retail in all portions of its Assigned Service Area established by the South Dakota Public Utilities Commission. Official Territorial Maps are on file with the Public Utilities Commission. The Company's Assigned Service Area includes the following communities:

Aberdeen	Cuthbert	Kranzburg	Scotland
Alpena	Dante	Lake Andes	Springfield
Amherst	Delmont	Lane	Stickney
Andover	Dimock	Lesterville	Storla
Armour	Doland	Letcher	Stratford
Ashton	Ethan	Lily	St. Lawrence
Athol	Faulkton	Loomis	Tripp
Avon	Florence	Loyalton	Tulare
Bancroft	Frankfort	Manchester	Turton
Barnard	Freeman	Mellette	Utica
Bemis	Garden City	Menno	Vayland
Blunt	Geddes	Miranda	Vienna
Bonilla	Goodwin	Mission Hill	Virgil
Bradley	Grover	Mitchell	Wagner
Brentford	Harrold	Mount Vernon	Wallace
Bristol	Hazel	Naples	Warner
Broadland	Henry	Northville	Webster
Butler	Highmore	Olivet	Wecota
Cavour	Hitchcock	Orient	Wessington
Chamberlain	Holabird	Parkston	Westport
Chelsea	Holmquist	Pierpont	White Lake
Claremont	Huron	Platte	Willow Lake
Clark	Iroquois	Ravinia	Wolsey
Columbia	Kampeska	Raymond	Woonsocket
Conde	Kaylor	Redfield	Yale
Corsica	Kimball	Ree Heights	Yankton
Cresbard	Kingsburg	Rockham	Zell

A map showing communities served with electric service at retail is on Sheet No. 3.

(Continued)

T

- b. An approved water heating installation shall include an approved time clock or other timing device which will retract service to installation to hours prescribed by the Company. Electrical energy will be supplied for a minimum of 10 hours during any 24 hour period.

- c. The water heater installation shall be equipped with thermostatically controlled non-inductive heating elements designed for a nominal voltage of 240 volts single phase service. Water heaters shall have a tank capacity of not less than 50 gallons and an electric capacity of not more than 5,000 watts at 240 volts. If two elements are used, interlocking controls are required to prevent simultaneous operations.

2. Space Heating

- a. Electric space heating shall be an approved dual fuel installation where electric space heating represents the primary source of space heating for the dwelling. The installation shall be designed to operate at 240 volts single phase and shall be permanently installed. Electric heating equipment shall be an alternate source of space heating to fuels other than natural gas or electricity.

- b. An approved dual-fuel installation shall be wired so that when electric service is interrupted, heating responsibility is immediately and automatically shifted to the alternately fueled heating system. In the event a customer seeking service pursuant to this tariff does not provide appropriate automatic switching control gear, a single waiver of responsibility for any possible damages must be received in lieu thereof. Electric service will be interrupted without notice to customer.

- c. Service pursuant to this rider is restricted to customer controllable requirements. No other equipment shall be connected without prior consent of the Company. The Company shall have the right to inspect installations to assure compliance with these provisions.

- d. Customer's dual-fuel system controls, fans, pumps and other associated equipment shall not be included on the interruptible circuit.
3. All service under this schedule shall be separately metered. The customer will purchase, install & maintain all required additional electrical equipment except for the meter. The Company will supply and maintain the necessary metering. Wiring by the customer shall be such that meters and controls are located outside the building; where meters and controls are separate, they shall supply and maintain the necessary low voltage relay and an approved relay switching device in a sealable enclosure to enable Company to control customer's loads. For large controlled loads, the customer's controllable load interrupting device may, with Company approval, be located inside the building adjacent to customer's main disconnects.
4. Service pursuant to this or a comparably constructed rate or rider shall be available for space and water heating purposes for a period of not less than 10 years after commencement of service.

(Continued)

OTHER PROVISIONS

Service will be furnished under the Company's General Terms and Conditions and the following provisions:

1. Off-peak periods will be designated by the Company in accordance with circumstance which may change from time to time. Hours of off-peak availability shall be a minimum of 10 hours during any 24 hour period.
2. Individual motors having a rating in excess of 5 horsepower must be three phase.
3. The energy charge will be billed monthly based on consumption. Demand charges, if applicable, will be billed in the month that billable demand units are established.
4. An interruptible facility must carry out the concept of avoiding on-peak power and energy consumption. Dual installations (i.e. two pieces of equipment performing identical functions, one during normal operating periods and one during periods for which an interruption notice has been given) do not qualify for this rate.

CLASS OF SERVICE: Irrigation Service

RATE NO. 17

(Continued)

3. The energy charge will be billed monthly based on consumption.

4. The applicable minimum seasonal charge will be billed to the customer in equal monthly installments during the five months, or the remaining months, of the irrigation season represented by the months of May through September inclusive, irrespective of whether the customer is billed for energy. All systems, unless otherwise directed by customer, will be energized at the beginning of the irrigation season and applicable facilities charges will be billed for the entire season. Demand charges will be billed in full for each month during the irrigation season after the commencement of energy usage. The customer may choose not to have his service energized and avoid applicable facilities charges; however, if a request to be energized occurs at any time during the irrigation season, the customer will be responsible for facilities and demand charges for the entire irrigation season.

5. If facilities charges are not billable during any two consecutive irrigation seasons, the Company may, at its option, remove its equipment (i.e. transformers, poles, conductors, etc.) or sell such equipment to the customer. If equipment is removed because the customer chose not to be subject to the minimum seasonal charge and chose not to purchase the facilities necessary to transmit service to the irrigation system, reconstruction of the service from the Company's lines to the system shall be at the customer's expense. All materials, except transformers, and all labor to install and remove facilities will be at the expense of the customer requesting service.

1. Due to the Energy Policy Act of 2005, after May 1, 2008, the Company will no longer install Mercury Vapor fixtures for new installations.
2. The lighting unit, defined as a bracket and fixture, shall be installed on a pole or other facility approved by the Company. If the lighting unit is installed on the Customer's premise, the Customer shall furnish all facilities necessary to operate the lighting unit. The light shall be controlled automatically to provide dusk to dawn service.
3. Maintenance and repair shall be provided during normal working hours by the Company after notification by the Customer.
4. Electric service to Reddy-Guard lighting units installed on Company owned facilities, other than a distribution pole, shall be furnished under Rate Schedule No. 56.

Discounted Energy Option Rider

Option X

CLASS OF SERVICE: All Residential and Non-demand Commercial
 and Industrial Service

APPLICABILITY

Effective with the approval of Commission Docket EL14-106 this rider is no longer available for new customers or for renewal of any current contracts. This rider will terminate for all remaining customers five years after the final order in docket EL14-106.

N
N
N

This rider is available to customers who have been on service at the same address pursuant to standard rates for a base period consisting of twelve consecutive months. Once selected, this optional rider shall remain in effect for twelve months and shall automatically extend to additional annual periods unless notice of intent to withdraw is given by either party or upon action by the South Dakota Public Utilities Commission. The applicability of this rider is subject to consummation of an agreement between the Company and customer and shall be effective on a prospective basis only. Customers have primary responsibility for applying for service pursuant to this rider.

TERRITORY

Company's Assigned Service Area

RATE

Base Period Monthly Charge (BPMC)	BPMC
Energy Charge (to be added to BPMC)	
All kilowatt hours, per kilowatt hour.....	\$0.02614

|

CLASS OF SERVICE: Point to Point Distribution Only Service RATE NO. 38

APPLICABILITY

This rate schedule is available for State Accounts or Aberdeen Pumping Stations and Aberdeen Ordway Plant that have a contracted power supply with Western Area Power Administration (WAPA) and/or other wholesale energy co-suppliers and where no facility installations or modifications are required to provide such service. Energy supply is not provided as part of this tariff. The customer will be responsible for purchasing WAPA supply and will be responsible for delivering such power to the Company's Distribution System.

TERRITORY

Company's Assigned Service Area.

RATE

Demand Charge – Per kilowatt

Per Meter
Per Month
\$3.34

Minimum Charge

The demand shall never be less than 100 kilowatts.

BASIS FOR BILLING

The metered demand shall be the highest thirty (30) minute integrated demand (or corrected to a 30 minute basis in the event 15 minute demand registers are installed) measured during the billing period and adjusted as provided in this schedule, consistent with demand billing by WAPA. Power factor will be maintained at 95% or above. Power factors under 95% will result in a power factor penalty in accordance with the power factor provision of the Company's General Terms and Conditions.

OTHER PROVISIONS

Service will be furnished under the Company's General Terms and Conditions and the following provisions:

1. Demands will be measured on a 30 minutes basis for this Rate 38 tariff only.

Street and Area Lighting Systems

(Continued)

Due to the Energy Policy Act of 2005, after May 1, 2008, the T
Company will no longer install Mercury Vapor fixtures for new installations. L

Service will be furnished under the Company's General Terms and Conditions and the L
following provisions: L

Company Owned

1. The Company shall install, own and operate the lighting system. The type and kind L
of luminaries and supports will comply with Company specifications. L
2. The lamp shall be lighted and extinguished by a photo-electric control furnished by L
the Company. The hours of burning shall be every night from dusk until dawn. L
3. Replacement of lamps due to ordinary burnout shall be made at Company expense L
during regularly scheduled working hours.
4. Installations served pursuant to this rate schedule shall be unmetered.
5. Company will disconnect and reconnect the lighting systems as requested. L
Billings for this service will not be less than the Customer Connection Charge. L
The Customer will be billed the costs directly chargeable to the job unless that L
cost is less than the Customer's Connection Charge.

Customer Owned

1. Customer shall install, own and maintain the lighting system consisting of the poles, L
fixtures, and circuits up to the nearest point of attachment to Company's facilities L
used to deliver power to Customer's system. The nearest point will be designated by L
the Company.
2. Company will disconnect and reconnect the lighting systems as requested. Billings L
for this service will not be less than the Customer Connection Charge. The L
Customer will be billed the costs directly chargeable to the job unless that cost is less L
than the Customer Connection Charge.
3. Installations served pursuant to this rate schedule shall be unmetered.

SIOUX FALLS SIOUX FALLS 12th Revised Sheet No. 31
SOUTH DAKOTA Canceling 11th Revised Sheet No. 31

CLASS OF SERVICE: Small Qualifying Facility Rider RATE NO. 74
(Time of delivery energy service)

APPLICABILITY

This schedule is available to all retail electric customers for any customer-owned or operated small qualifying facility for which qualifying status has been obtained under the rules of the Public Utility Regulatory Policies Act of 1978, and as further revised in Energy Policy Act 2005. T

TERRITORY

Company's assigned service area.

RATE

Per Meter
Per Month

Customer Charge
Customer Charge \$2.00

Payment schedule for energy delivered to the Company
On-peak energy payment per kilowatt hour \$0.0334 T
(6 a.m. to 10 p.m. Monday through Saturday,
inclusive, excluding Holidays)

Off-peak energy payment per kilowatt hour \$0.0225 T
(All hours not designated as on-peak)

Payment for Capacity per kilowatt \$2.50 T

OTHER PROVISIONS

Service will be furnished under the Company's General Terms and Conditions and the following provisions:

1. Customer shall be billed monthly for the following:
 - a) Demand and energy consumed during the billing period pursuant to appropriate retail rate schedule(s).
 - b) Net compensation or billing applicable to energy delivered during the billing period at above prescribed rate.

SOUTH DAKOTA	<u>Canceling 1st Revised</u>	Sheet No.31.1

CLASS OF SERVICE: Small Qualifying Facility Rider RATE NO. 74
(Time of delivery energy service)

(Continued)

- (c) to customers who purchase from the Company all electric load requirements which are in excess of the simultaneous output from the facility and sell to the Company all output which is in excess of the simultaneous load, or
 - (d) to customers who purchase their entire electric load requirements from the Company and sell the entire output from the facility to the Company.
2. Customer must comply with the applicable requirements of South Dakota Public Utilities Commission Administrative Rules 20:10:36 including but not limited to a Tier 1 or Tier 2 Interconnect Request, an Interconnect Agreement and a Certificate of Completion. The minimum contracted term of service is 12 months. The rate contained in this tariff is subject to annual review.
3. Customer must provide a service disconnect that is accessible by Company employees at all times.
4. In order to qualify for capacity payments, the small qualifying facility must be able to deliver power at a minimum on-peak capacity factor of 65% in the months of June – September and must be able to deliver during the Company’s summer peak. Capacity payments will only be made in the months of June – September and will be updated annually as needed.

NORTHWESTERN CORPORATION d/b/a NORTHWESTERN ENERGY	Section No. 3
SIOUX FALLS	<u>10th Revised</u> Sheet No. 33
SOUTH DAKOTA	<u>Canceling 9th Revised</u> Sheet No. 33

ADJUSTMENT CLAUSE

1. The applicable energy or demand charges shall be increased or decreased quarterly, by an adjustment amount per kilowatt-hour of sales (to the nearest 0.001¢) or kilowatt of demand (to the nearest 1.0¢) equal to the difference between the delivered cost of energy, delivered cost of fuel, ad valorem taxes paid, and Commission approved fuel incentives pursuant to SDCL 49-34A-25 ("qualified costs") per kilowatt-hour of sales or kilowatt of demand and the base cost per kilowatt hour or kilowatt included in applicable standard base rates, if any.

2. Qualified costs include:
 - a. Delivered cost of energy: T
 - i. The net cost of energy delivered to the distribution system pursuant to filed wholesale transmission rates as recorded in Accounts 456 and 565 of the Federal Energy Regulatory Commission's Uniform System of Accounts for Public Utilities and Licensees. T

 - b. Delivered cost of fuel: T
 - i. Fossil and nuclear fuel consumed in the utility's own plants, and the utility's share of fossil and nuclear fuel consumed in jointly owned or leased plants; plus T

 - ii. The actual identifiable fossil and nuclear fuel costs associated with energy purchased for reasons other than identified in paragraph (b)(iii) below; plus T
T

 - iii. The net energy cost of energy purchases, exclusive of capacity or demand charges (irrespective of the designation assigned to such transaction) when such energy is purchased on an economic dispatch basis. Included therein may be such costs as the charges for economy energy purchases and the charges as a result of scheduled outage, all such kinds of energy being purchased by the utility to substitute for its own higher cost energy; and less T

 - iv. The cost of fossil and nuclear fuel recovered through inter-system sales including the fuel costs related to economy energy sales and other energy sold on an economic dispatch basis. T

 - v. The cost of fossil fuel shall include those items listed in Account 151 of the Federal Energy Regulatory Commission's Uniform System of Accounts for Public Utilities and Licensees. The cost of nuclear fuel shall be that as shown in Account 518, except that if Account 518 also contains any expense for fossil fuel which has already been included in the cost of fossil fuel, it shall be deducted from this account. NORTHWESTERN CORPORATION d/b/a NORTHWESTERN ENERGY	Section No. 3
SIOUX FALLS	<u>5th Revised</u> Sheet No.33.1
SOUTH DAKOTA	Canceling 4th Revised Sheet No.33.1

(Continued)

- vi. Revenue generated by the Sale of Renewable Energy Credits less expenses will be credited to customers. T

- vii. The cost of reagents and treated water used by the Company to operate its generating plants, in compliance with the associated United States Environmental Protection Agency rules and regulations. T

- viii. Production Tax Credits provided by the generation of energy from the Company's Wind Generation Facilities. T

- c. Ad Valorem Taxes paid: T
All ad valorem taxes accrued and adjusted for actual tax payments less recovery through (a) or (b) above, if any. T

- d. Commission approved fuel incentives: T
All Commission approved incentives, if any, less recovery pursuant to (a), (b), or (c) above, if any. T

- 3. Sales shall be all kilowatt hours sold, excluding inter-system sales. Sales shall be equated to the sum of generation, purchases, and interchange-in, less energy associated with pumped storage operations, less inter-system sales referred to in paragraph (2) (b) (iv) above, less system losses. T

- 4. Variances in actual qualified costs incurred and costs recovered through the Adjustment Clause mechanism will be separately measured monthly for the delivered cost of energy, delivered cost of fuel, ad valorem taxes paid, and South Dakota Public Utilities Commission approved fuel incentives. All accrued over or under variances shall be assessed a carrying charge or credit based upon the overall rate of return allowed by the South Dakota Public Utilities Commission in the Company's last general rate filing. Each applicable end-of-quarter true-up balance, adjusted for the next nine month's estimated over or under collection of cost, will be amortized into rates over the last twelve months of the subsequent thirteen month period.

TAX ADJUSTMENT CLAUSE

APPLICABILITY

The above rate shall be increased or decreased to offset any new or increased special taxes, licenses, franchise fees, rentals or assessments imposed or decreased by any Governmental authority against the Company's property used in the production, transmission, distribution or sale of electric energy or its electrical operations or production or sale of electric energy or the receipts or earnings therefrom on or after the effective date of this rate schedule.

Such special taxes shall, on the basis of Customer's consumption or billing, be apportioned prorata among Customers within the limits of any political entity which imposes any such special taxes, licenses, franchise fees, rentals or assessments, to offset such special levies and to relieve Customers outside of such political entity of the burden of payment for any such special levies. Any such cost adjustment shall continue in effect only for the duration of the specified levies.

SOUTH DAKOTA ELECTRIC RATE SCHEDULE

NORTHWESTERN CORPORATION d/b/a NORTHWESTERN ENERGY SIoux FALLS SOUTH DAKOTA	Section No. 5 8th Revised Canceling 7th Revised Sheet No. 1 Sheet No. 1
--	--

GENERAL TERMS AND CONDITIONS

APPLICABILITY

These General Terms and Conditions apply to all classes of electric service unless otherwise indicated on the rate schedule.

CUSTOMER CONNECTION CHARGE

Customer Connection is defined as attaching a Customer to receive utility service upon a request for new service or reconnection of discontinued service (Customer Connection does not include the reconnection of a Customer whose utility services were discontinued due to nonpayment of utility bills. Reconnection charges for such Customers are based on the Company's hourly rates for service work with a one hour minimum.) The amount of the Customer Connection Charge will be \$20.00 for all Customer Connections during normal business hours defined as 8:00 a.m. to 5:00 p.m., Monday through Friday, excluding legal holidays, and \$150.00 for Customer Connections during other than regular business hours. Customers requesting service after the Company's normal business hours will be informed of the after hour service rate and encouraged to have the service performed during normal business hours. The connection charge will be billed on all Customers applying for electric service. The Customer Connection Charge shall be paid by the Customer receiving power and energy from the Company, and is due and payable upon presentation. If a bill is not paid, the Company shall have the right to refuse service. The Customer, Landlord or representative (at least the legal age of majority) may be required to be present during the Service turn-on.

ACCESS TO PREMISES

The Company has the right of access to the Customer's premise, including right-of-way, at all reasonable times for the purpose of installing, reading, inspecting, or repairing any service lines, meters, devices, and other equipment and facilities used in connection with furnishing of any or all service, including any necessary repairs and maintenance, or for the purpose of removing its property and for all other proper purposes. In addition, the Company may require the customer, Landlord or representative (at least the legal age of majority), be present when performing work inside a customer's facility.

OWNER'S CONSENT TO OCCUPY

In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's lines, the Customer will obtain from the property owner(s) the necessary consent to install, operate and maintain in said premises all such electric equipment as is necessary or convenient for supplying electricity to the Customer.

CUSTOMER'S INSTALLATION

The Customer will furnish and own all interior wiring and equipment for use of the service, conduit for underground services, and all poles, wires, meter sockets, and fixtures necessary to distribute such service from the point of service attachment to the various buildings served. Point of service attachment is defined as that point where the facilities of the Company are physically connected to the facilities of the Customer. In general, the point of attachment on overhead services is where the Company's conductors enter the weather head and, for underground services, is where the Company's conductors connect to the top of the Customer's meter socket.

All wiring and equipment furnished by the Customer will be maintained by the Customer at all times in conformity with the requirements of the constituted authorities and with all Terms and Conditions of the Company.

SOUTH DAKOTA ELECTRIC RATE SCHEDULE

NORTHWESTERN CORPORATION d/b/a NORTHWESTERN ENERGY Section No. 5
SIoux FALLS 3rd Revised Sheet No. 1a
SOUTH DAKOTA Canceling 2nd Revised Sheet No. 1a

GENERAL TERMS AND CONDITIONS

(Continued)

Installation of electric service lines is scheduled by the Company for completion during the regular construction season. The Company may make a charge for added cost of the construction of an electric service line if the installation is required when the ground is frozen.

N
N
N
N
N
N

The Company will not install Electric Services until the surface has been graded to within six inches of a permanent established elevation.

EXTENSION OF SERVICE

The Company may elect to install overhead or underground facilities to extend service. If the Company intends to install overhead facilities to extend service, the Customer may request the Company to instead install underground facilities to extend service to Customer. In such case, the terms and conditions related to Underground Service in these tariffs shall apply.

UNDERGROUND SERVICE

For underground electric services, the Company will install underground facilities to extend a service line without charge to the extent of 150 feet of cable along the shortest feasible route from the distribution line to the point of service attachment. If additional footage is required, the Customer will make a non-refundable contribution of \$1.00 per foot of cable exceeding 150 feet. The Customer will arrange and pay for all trenching and backfilling, consistent with the Company's specifications that are required for installation of the underground service line. In addition, the Customer will pay the Company for any conduits or fittings used in the installation of such service line.

ECONOMIC FEASIBILITY

Projects over 500 feet in length will be subject to an economic feasibility review. For determining contributions on facility extensions, annual revenue will be determined by multiplying the projected volumes by the projected tariff delivery rate. The annual revenue will be reduced by the annual projected Fuel and Purchased Power, Operating, Maintenance, and Property Tax Expenses. The resulting net margin will be divided by the current allowed rate of return, grossed up for taxes to determine the level of investment the load will support. Any project costs over and above the determined level of investment will be collected from the customer.

N
N
N
N
N
N
N
N
N
N
N
N

In instances where a Contribution in Aid of Construction (CIAC) is required, three years after the project has been completed, the Company will review the three-year average use. If the actual volumes vary from projected volumes by 20% or more, the Company will charge or credit the customer for the variance, without interest, in projected CIAC. The original project revenues will be recalculated using the actual average volumes, from the three-year period. The costs and rates used in the original calculation will remain unchanged.

EXCLUSIVE SERVICE ON INSTALLATION CONNECTED

No electric service will be used by the Customer on the same installation in conjunction with the Company's service, either by means of a throw-over switch or any other connection or device, except where the Customer has a contract with the Company for reserve or auxiliary service.

The Customer will not sell the electricity purchased from the Company to any other Customer, company, or person, and Customer will not deliver electricity purchased from the Company to any connection wherein said electricity is to be used off the Customer's premises or by persons over whom Customer has no control, except as specifically provided for in the Customers' Contract For Service.

SIoux FALLS	<u>4th Revised</u> Sheet No. 2
SOUTH DAKOTA	Canceling 3rd Revised Sheet No. 2

GENERAL TERMS AND CONDITIONS

(Continued)

PROTECTION OF COMPANY'S PROPERTY

The Customer will properly protect the Company's property on the Customer's premises from loss or damage and will permit no one who is not an agent of the Company to remove or tamper with the Company's property. Under applicable laws, in any case of tampering or interfering with the proper functioning of a meter installation (including, specifically, the Company's meter seal) or evidence thereof or of any theft or any diversion of electric service, the Customer will be liable to prosecution, and the Company will be entitled to collect from the Customer, at the appropriate rate, for all power and energy not recorded on the meter by reason of such tampering, interfering, theft or diversion of service, in an amount which may be estimated by the Company from the best available data, together with all expenses incurred by the Company as a result of such unauthorized acts.

L

METERING

The service used will be measured by a meter or meters to be furnished and installed by the Company at its own expense; provided however Customers are responsible for arranging and paying for a telephone line when electronic metering is installed for a Customer. Upon the registration of said meters all bills will be calculated. If more than one meter is installed on different classes of service (each class being charged for at different rates) each meter will be considered by itself in calculating the amount of any bill. Meters include all measuring instruments. Meters will be located as near as possible to the service entrance and on the ground floor of the building in a clean, dry, safe and easily accessible place, free from vibration, or at such other point selected by the Company.

Commercial Customers having more than one power or heating meter, or both will be billed under the appropriate commercial rate. The billing department will either add the consumption and bill in one amount under the proper rate or bill separately under the correct rates for services as used by the Customer. If the Customer has two or more services of different characteristics and does not care to change the necessary wiring and entrances, he will be billed at the applicable separate rate until the physical wiring changes are made at his expense.

Where, at the Customer's request, the Company has installed primary metering or MV90 metering with electronic totalizing application, unless otherwise approved by the Company, the Customer will own and be responsible for the maintenance of all electric lines and facilities, other than transformers, from a single point of delivery, and the Company will combine all usage for billing purposes.

SUB-METERING

Sub-metering will not be permitted unless it is at the same premises and either the Customer or the Company have compelling reasons for not combining the existing services into one service and one meter. Under no circumstances shall a Customer's wiring cross a public street or alley.

METERING FOR RESALE

A Customer is not permitted to receive power or energy through one meter and resell such power or energy to another user through separate meters, regardless of who owns the meter serving the ultimate user.

SOUTH DAKOTA ELECTRIC RATE SCHEDULE

NORTHWESTERN CORPORATION d/b/a NORTHWESTERN ENERGY Section No. 5
SIoux FALLS 4th Revised Sheet No. 3
SOUTH DAKOTA Canceling 3rd Revised Sheet No. 3

GENERAL TERMS AND CONDITIONS

(Continued)

METER TEST BY CUSTOMER REQUEST

Any Customer may request the Company to test its electric meter. The Company shall make such test as soon as possible after receipt of the request. If a request is made within one year after a previous request, the Company may require a residential Customer to pay a \$10 deposit and may require any other Customer to pay a deposit in the following amount:

L

Single Phase Meter	\$10.00
Single Phase Demand and Self-Contained 3-Phase Meter	\$20.00
All other Polyphase	\$30.00

The deposit shall be refunded only if the meter is found to have an unacceptable error, as defined in the Commission's regulations.

BYPASSING OR TAMPERING WITH METERING FACILITIES

Customers shall not interfere in any way with the metering facilities after they have been set in place. In cases where the meter seal is broken or the working parts of the meter have been tampered with or the meter damaged or there is evidence that a bypass has been used, the Company may render a bill for the current billing period based upon the estimated use, considering past experience under similar conditions and may, in addition thereto, charge for the actual cost of repairing or replacing said meter and connections. In instances where a disconnected customer has reconnected their own service, the Company may charge \$100 to correct the unauthorized changes and reconnect the service. Service may be discontinued or refused at the premises where such bypassing or tampering has occurred until all such charges are paid. Legal action may also be pursued in the instance of meter tampering. This section does not apply to metering facilities that are damaged by acts of God.

N
N
N
N
N
N
IN
N

MASTER METERING

All buildings, mobile home parks, and trailer courts for which construction was begun after June 13, 1980, shall be metered separately for each residential or commercial unit, with the exception of hospitals; nursing homes; transient hotels and motels; dormitories; campgrounds; other residential facilities of a purely transient nature; central heating or cooling systems; central ventilating systems; central hot water systems; residential multiple occupancy building of only two units, one of which unit is occupied by the owner of the building; and multiple occupancy buildings constructed, owned, or operated with funds appropriated through the Department of Housing and Urban Development or any other federal or state government agency. Any existing multiple occupancy building receiving master metered service which is substantially remodeled or renovated for continued use as a multiple occupancy building, if such remodeling or renovation is begun after June 13, 1980, shall be individually metered, unless the building meets any of the exceptions listed above or unless the owner of such building demonstrates to the satisfaction of the South Dakota Public Utilities Commission that conversion from master metering to individual metering would be impractical uneconomical, or unfeasible.

The restrictions against master metering, contained in the preceding paragraph, are waived to the extent requests for variances, are granted by the South Dakota Public Utilities Commission.

DETERMINATION OF MEASURED DEMAND

The measured demand will be the average number of kilowatts used by the Customer during the 15 minute period of maximum use during the billing month.

(Continued)

SOUTH DAKOTA ELECTRIC RATE SCHEDULE

NORTHWESTERN CORPORATION d/b/a NORTHWESTERN ENERGY Section No. 5
SIoux FALLS 8th Revised Sheet No. 4
SOUTH DAKOTA Canceling 7th Revised Sheet No. 4

GENERAL TERMS AND CONDITIONS

(Continued)

DETERMINATION OF BILLING DEMAND

The average power factor is defined as the quotient obtained by dividing the number of kilowatt-hours (kwh) used during the billing period by the square root of the sum of the squares of the number of kilowatt-hours used and the number of leading or lagging reactive kilovolt-ampere-hours (KVARH) supplied during the same period.

$$\text{Average Power Factor} = \frac{\text{KWH}}{\text{SQUARE ROOT (KWH}^2 + \text{KVARH}^2)}$$

The Company reserves the right to make monthly tests to determine the average power factor of the Customer's installation. The average power factor for the month may be determined by permanently installed metering equipment or by periodic test under normal operating conditions. Test will be made at the metering point.

If the monthly average power factor of any metering point is less than 95% for:

a) Accounts with measured demand

Adjusted demand will be determined by multiplying measured demand (kilowatt) by 95% divided by the average power factor applicable to the billing period as previously determined. The billable power factor adjustment will be the resulting increase in billable demand at the demand charge rate as shown on Sheet No. 14, plus applicable adjustments as shown on Sheets No. 33a and 33b.

b) Accounts without measured demand

Adjusted energy will be determined by multiplying measured energy (kilowatt hours) by 95% divided by the average power factor applicable to the billing period as previously determined. The billable power factor adjustment will be the resulting increase in billable energy at energy rates pursuant to rate schedules otherwise applicable.

MONTHLY BILLS

(a) Bills for service will be rendered monthly unless otherwise specified. The term "month" for billing purposes will mean the period between any two consecutive readings of the meters by the Company, such readings to be taken as near practicable every thirty days.

(b) Failure to receive a bill in no way exempts Customers from the provisions of these Terms and Conditions.

(c) When the Company is unable to read a meter after a reasonable effort, the Customer will be billed based on the Company's best estimate, considering billings for the previous year, the previous month, and estimated peak usage, and the billing adjusted when the meter is read.

GENERAL TERMS AND CONDITIONS

(Continued)

TERMS OF PAYMENT

Bills are due and payable upon receipt and will be delinquent if not paid by the 20th day after billing. A late payment charge of 1% of the unpaid balance plus a collection fee of \$2.00 will be assessed against any delinquent account having an unpaid balance of \$5.00 or more at the time of processing of the next monthly bill. Where a Customer has been disconnected for non-payment of a bill, a reconnection charge will be assessed in accordance with the Company's concurrent connection policy. There shall be a charge of \$30.00 for any check or draft submitted to the Company for payment which is dishonored or returned by the financial institution on which it is drawn.

L
L
L
L
L
L
L

OPTIONAL RATES

When two or more rates are available for certain classes of service, the conditions under which they are applicable to the requirements of particular Customers are plainly set forth in the Company's rate schedule. If a Customer is eligible to receive service under more than one rate, the utility, upon notice of this fact, shall advise the Customer of all alternatives. The choice of such rates lies with the Customer who will be given reasonable opportunity to determine his service requirements before definitely selecting the most favorable rate.

Thereafter, the Company will upon request advise the Customer as to the rate best adapted to existing or anticipated service requirements as defined by the Customer, but the Company does not assume responsibility for the selection of such rate or for the continuance of the lowest annual cost under the rate selected after service is originally provided.

The Customer should periodically investigate his operating conditions with a view to determining desirable changes from one available rate to another. The Company, lacking knowledge of changes which may occur at any time in the Customer's operating conditions, does not assume responsibility that Customers will be served under the most favorable rate nor does the Company make refunds covering the difference between the charges under the rates in effect and those under the rate applicable to the same service except if an unfavorable rate was initially selected by the Customer at the time of provision of service and the first paragraph above set forth was not complied with in whole or in part.

A Customer, having selected a rate adapted to his service, may not change to another rate within a twelve month period unless a substantial change in the character or conditions of his service occurs which is unrelated to a rate which is based on annual or seasonable considerations.

DISCONTINUANCE OF SERVICE

In addition to the provisions of ARSD 20:10:20, the Company has the right to discontinue service to a Customer in the event that an unsafe service condition exists on the Customer's premises, which is likely to cause injury to person or property. The Company will notify the Customer prior to such disconnection, if practical under the circumstances.

BUDGET PAYMENT PLAN

D

The Company's Budget Bill Plan (BBP) is available to residential and commercial customers. It may be initiated for a customer at any time during the year, provided that the Customer has paid all outstanding utility charges due the Company.

The Company will have a billing practice under which a Customer may be billed monthly for a percentage or portion of the Customer's total annual consumption as estimated by the Company. The purpose of such budget billing is to provide, insofar as it is practicable to do so, a uniform monthly bill.

Each BBP account will be reviewed by the Company at least semi-annually, based on their Budget Billing start date, to determine if an adjustment to the budget amount is necessary, to minimize annual over/under collection balances. The new BPP will be determined by adding the Customer's actual debit or credit balance, at the time of review, to the Customer's prior 12 months billings under current tariff rates, adjusted for normal weather, known changes in consumption, and projected Adjustment Clause price increases or decreases, the sum of which is divided by twelve. Where prior billings are not available, the Company will estimate billings using the best available information of Customer's consumption.

Should a Customer request that the Company not take the actual debit or credit balance into consideration when calculating a revised budget amount, the Company will issue a check to a Customer with a credit balance or bill the Customer for any debit balance.

Service to Customers participating in the BPP shall be pursuant to the General Terms and Conditions of service including the Terms of Payment provisions contained therein, provided, however, that service to a BBP Customer will not be disconnected for non-payment if the Customer has a credit balance in his account. A Customer may discontinue participation in the BBP at any time.

RESIDENTIAL WATER HEATER RESTRICTION

Residential water heater installation shall be equipped with thermostatically controlled non-inductive heating elements designed for a nominal voltage of 240 volts single phase service. Water heaters shall have an electric capacity of not more than 5000 watts at 240 volts. If two elements are used, interlocking controls are required to prevent simultaneous operation. Tankless water heaters are permitted only with prior notification to the Company and may require a Contribution in Aid of Construction (CIAC), for required system upgrades. Once the CIAC has been received by the Company, the Company will make the required upgrades and allow installation of the tankless water heater.

GENERAL TERMS AND CONDITIONS

(Continued)

CUSTOMER'S EQUIPMENT

The transformers, service conductors, meters and other equipment used in furnishing service to a Customer have a definite capacity. Therefore, no material increase in load or equipment will be made without first making arrangements with the Company for the additional electric supply.

Individual motors over 1/2 horsepower and/or having a rating exceeding 7 1/2 amperes shall be connected to a line to line circuit.

Single phase motors exceeding 5 horsepower and/or with locked rotor current exceeding 100 amperes shall not be connected to the Company's system without prior Company approval. Motors of 10 horsepower or over must be supplied with three-phase service. The Company reserves the right to limit the size of motors that may be operated on any part of its system, for operational purposes.

Any motor, when started on full-rated voltage, causes a drop in voltage on the electrical system serving it and may cause unsatisfactory operation of other equipment. In those installations where starting currents have, or will have, a detrimental effect on the system or other equipment, the Customer will be required to install suitable starting devices to limit starting currents to allowable amounts. Information as to starting currents allowable in the service area should be obtained from the Company's local office. The Company will endeavor to suggest ways and means of meeting such requirements.

PROTECTION SERVICE

The Company cannot render service to any Customer for the operation of any device which has a detrimental effect upon the service rendered to other Customers. The Company, however, will endeavor to cooperate with its Customers when consulted concerning the intended use of any device.

Where the Customer's use of electricity is intermittent or subject to violent fluctuations, the Company reserves the right to require the Customer to furnish at his own expense suitable equipment to reasonably limit such intermittence or fluctuation.

CONTINUITY OF SERVICE AND VOLTAGE REGULATION

The Company will endeavor to provide continuous service but does not guarantee an uninterrupted or undisturbed supply of electric service. The Company will not be responsible for any loss or damage resulting from the interruption or disturbance of service for any cause other than gross negligence of the Company. The Company will not be liable for any loss of profits or other consequential damages resulting from the use of service or any interruption or disturbance of service. The Company will furnish electric service within normal voltage and frequency limits, provided, however, if the normal voltage regulation furnished Customers is unsatisfactory for

GENERAL TERMS AND CONDITIONS

(Continued)

special apparatus requiring close regulation, or if the Customer's electrical appliances are subject to damage due to high or low voltage, the single phasing of three-phase service, phase reversals, or other fluctuations in the quality of service furnished by the Company, then the Customer shall install regulative apparatus and protective devices at his own expense. Without notice, the Company may curtail or interrupt service to any or all of its Customers when, in its judgment, such curtailment or interruption will prevent or alleviate a threat to the integrity of its power supply.

To assure adequate safety to personnel and equipment, the Customer shall provide and maintain code-approved protective devices in each phase to protect all motors against overloading, short circuits, ground faults and low voltage, and to protect all three-phase motors against single-phasing.

Computers and other sensitive electronic equipment, which require high grade, uninterrupted power, may, on occasion, experience problems when connected directly to the Company's distribution system. The Customer should check with an electric dealer, wireman, contractor, engineer, or architect to ascertain the need for Customer-supplied lightning arresters, surge suppressors, isolation transformers, by-pass meter socket, standby or uninterruptible power supplies.

LIABILITY

The Customer assumes all responsibility for all service and equipment at and from the Customer's point of service attachment of such service, and will protect and save the Company harmless from all claims for injury or damage to persons or property occurring by such services and equipment, except where said injury or damage is shown to have been occasioned solely by the negligence of the Company.

AGENTS CANNOT MODIFY AGREEMENT

No agent has power to amend, modify, alter or waive any of these Terms and Conditions, or to bind the Company by making any promise or representation not contained herein. However, the Company will continue its policy of attempting to accommodate Customers and Customer problems wherever possible.

COGENERATION AND SMALL POWER PRODUCTION

Qualifying Facility. A qualifying facility (QF) is a power production or cogeneration facility which has received qualifying status under the Public Utility Regulatory Policies Act of 1978 (PURPA), Sections 201 and 210 and regulations established by the Federal Energy Regulatory Commission (FERC), 18 CFR Part 292. Any interconnection between the Company and a qualifying facility shall be in compliance with PURPA, the FERC regulations, and the Decision and Order of the Public Utilities Commission in Docket F-3365.

SIOUX FALLS	<u>2nd Revised</u> Sheet No. 8
SOUTH DAKOTA	<u>Canceling 1st Revised</u> Sheet No. 8

GENERAL TERMS AND CONDITIONS

(Continued)

Small Qualifying Facility. A small qualifying facility (SQF) is a qualifying facility with certified capacity of 100 kilowatt or less. T

Company Obligations. Subject to the provisions of these general terms and conditions, PURPA, the FERC regulations, and the Decision and Order of the South Dakota Public Utilities Commission in Docket F-3365, the Company has the obligation to purchase any electric energy and capacity that is made available from a qualifying facility, to sell to any qualifying facility any electric energy and capacity requested, to make interconnections with any qualifying facility to accomplish purchases or sales, and to offer to operate in parallel with a qualifying facility. T

Safety and Reliability Standards. Interconnection between the Customer's QF and the Company's electric system mandates the adoption of reasonable standards to ensure the safety and reliability of the Company's electric system and to protect the Customer, its QF, the general public, and the Company's employees. The Company adopts the following practices, methods, and acts as such reasonable standards: T

1) Prudent Utility Practice. Any of the practices, methods, and acts, which, in the exercise of reasonable judgment in the light of the facts (including but not limited to the practices, methods, and acts engaged in or approved by a significant portion of the electric utility industry prior thereto) known at the time the decision was made, would have been expected to accomplish the desired result at the lowest reasonable cost consistent with good business practices, reliability, safety, and expedition, taking into account the fact that Prudent Utility Practice is not intended to be limited to the optimum practice, methods, or acts to the exclusion of all others, but rather to be a spectrum of possible practices, methods, or acts which could have been expected to accomplish the desired result at the lowest reasonable cost consistent with reliability, safety, and expedition. Prudent Utility Practice includes due regard for manufacturers' warranties and requirements of governmental agencies of competent jurisdiction.

2) The Customer's QF and associated equipment shall meet all requirements of applicable state and federal regulations; local, state, and national codes; and all standards of Prudent Utility Practice. T

3) Prior to connecting the Customer's QF in parallel to the Company's electric system, the Customer shall provide to the Company for its review, the specifications for major equipment associated with the Customer's QF and detailed electrical diagrams, which T

GENERAL TERMS AND CONDITIONS

(Continued)

diagrams must show all related wiring and safety features of the QF, equipment nameplate data including the interface device and the control system of the Customer's power source, a site plan, and the operating characteristics for the Customer's generator and interconnection, and all of these items must be approved by the Company. The Company will permit the Customer to operate its QF in parallel with the Company's electric system only when this can be done without adverse effects on the general public, other utility customers, and the Company's equipment and employees. Certain protective devices (relays, circuit breakers, etc.) within reasonable electrical industry standards may be required by the Company. The purpose of such devices is to promptly remove the in-feed from the Customer's QF whenever a fault occurs, so as to protect the general public, other utility customers, and the Company's equipment and employees from damage due to fault currents produced by the Customer's QF. T
T
T
T

4) Interconnection shall be made in such manner that, if the voltage from the Company is absent, the electrical interconnection is immediately broken.

5) The Customer must comply with all applicable provisions of the State Electrical Code, the National Electrical Safety Code, and the National Electrical Code.

6) The Customer's generating system, including interconnecting equipment, shall meet the requirements of and be inspected and approved by the State Electrical Commission and any other public authority having jurisdiction before any interconnection is made to the electrical system of the Customer or the Company.

7) Wind driven generating facilities, for safety purposes, shall be connected by underground conductor to a point of a horizontal length not less than 1.5 times the fall distance of the qualifying facility from the Company's facilities.

8) To protect appliances and equipment on the premises of the Customer and other customers, the power generated by the Customer shall not induce excessive distortion to the system's voltage or current sine waves. The Maximum allowable distortion must not exceed 10% measured at the Customer's service box.

9) To protect the QF, and to protect all parties from electric shock, the Customer shall supply and install automatic devices to positively disconnect his generating equipment from the system in the event of a disturbance or supply outage on the Company's system. The Company shall be allowed access to this device at all times to permit periodic safety tests. T,L

GENERAL TERMS AND CONDITIONS

(Continued)

10) The Customer shall furnish and install a disconnecting switch to be connected between the Company's electric system and the QF. This switch must provide a visual opening in the line and shall be located and equipped so that the Company's employees can have access to operate and lock the switch in case of an outage or for work on the Company's system.

L
T

11) If the Customer's QF interferes with the operation of the Company's equipment or interferes with service to other customers, the Company reserved the right to disconnect.

T

12) The Customer's load in conjunction with the generating system shall not have a power factor of less than .95 leading or lagging.

13) The Customer shall furnish and install all additional wiring and equipment needed to connect the QF metering at existing service location. The meter socket shall be installed as close as possible to the existing service meter.

T

14) The Customer shall give reasonable notice to the Company concerning periods during which the Customer-generated energy is proposed to be furnished and the estimated amount thereof.

15) The Customer shall advise the Company prior to making any revisions to the Customer's QF, the control system, or the interface between the two power systems after the installation. Any such revision must be acceptable to the Company.

T

16) The Company will not assume any responsibility for protection of the generator or any other portion of the QF's electrical equipment. The Customer is fully responsible for protecting its equipment in such a manner that faults or other disturbances on the Company's system do not cause damage to the Customer's equipment, the general public, and the Company's equipment and employees.

17) Should the parallel operation of the Customer's QF cause interference or adversely affect voltage, frequency, harmonic content, or power factor in the Company's system or the service to other customers, the Company may require disconnection of parallel operation until the condition has been corrected.

18) The Company shall be responsible for maintenance of all equipment it has supplied. The Customer shall be responsible for the maintenance of its generating, protective equipment, and interconnection equipment. Complete maintenance records must be maintained by the Customer and be available for the Company's review.

19) The Company reserves the right to inspect on demand all protective equipment including relays and circuit breakers owned and installed by the Customer at the point of interconnection.

20) All interconnections shall be made in compliance with the requirements shown on the Exhibits which are made a part of these General Terms and Conditions.

21) The Company reserves the right to promulgate such other safety and reliability standards necessary for the operation of its system as may be allowed or required by law.

Interconnection Charge. An interconnection charge will be assessed to recover those costs associated with the addition to or modification of Company facilities to accommodate the SQF in excess of the facilities and expenses recovered in the monthly customer charge. At the option of the Customer, the interconnection charge shall be a single nonrefundable charge for the costs incurred or to be incurred by the Company, or a monthly levelized charge equal to one-twelfth of the Company's annual fixed costs plus cost of maintenance. If the Customer selects the monthly interconnection charge and permanently disconnects from the Company's system prior to completion of all monthly payments, the Customer will be responsible for making a one-time payment to the Company. The one-time payment will include those interconnection costs not yet paid plus removal costs, minus salvage value, along with an administrative charge.

Customer with an SQF shall indemnify, protect, defend and save harmless the Company from and against any and all claims and demands for damages, remote as well as proximate, to property and injury or death to persons, including payments made under any workman's compensation law or under any plan for employees' disability and death benefits, which

may arise out of or be caused by the installation, maintenance, presence, operation or removal of the qualifying facility, or by any related act or omission of the customer, its employees, agents, contractors or subcontractors.

Customers with an SQF shall maintain during the term of the SQF Electric Service Agreement liability insurance which insures the Customer against all claims for property damage and for personal injury or death arising out of, resulting from, or in any manner connected with the installation, operation and maintenance of the SQF. The amount of such insurance coverage shall be at least \$300,000 per occurrence. The Customer shall furnish a certificate from its insurance carrier showing that it has complied with the provisions of this section and providing that the insurance policy will not be changed or canceled during its term without written 90-day notice to Northwestern Energy.

Output. The output of a QF or SQF shall be 60 cycle and shall be at the voltage and phase of the existing service or service proposed to the Customer.

Three-phase Power. Three-phase power cannot be interconnected to the Company's system unless three-phase power already exists or three-phase power is proposed to be utilized by the Customer for purposes other than operating a QF or SQF.

Agreement. Service to a qualifying facility will be as set forth in these General Terms and Conditions and in a written Agreement between the Company and the Customer.

Standby, Supplementary, Emergency and Incidental Services. The Company will provide standby, supplementary, emergency and incidental services upon request of the Customer. These services will be available pursuant to a negotiated contract between the Company and the Customer and are as defined as follows:

a. Standby service is defined as service continuously available through a permanent connection to provide power and energy for use by Customer in case of failure of another mechanical or electrical source of power,

b. Supplementary service shall be defined as service continuously available through a permanent connection to supplement or augment directly or indirectly another independent source of power.

RE: NorthWestern Energy Payment

Dear {varid=CUSTNAME},

Recently, you used an old account number when making a payment on your NorthWestern Energy Account. Your account number is {var id=ACCOUNT}-{var id=ACCTCKDGT}.

Please make the necessary changes to update your account number on your payment to NorthWestern Energy. This will ensure your account is properly credited.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Sincerely,

NorthWestern Energy
Customer Care Department

DISCONNECT NOTICE 1

Account Number: {varid=ACCOUNT}-{var id=ACCTCKDGT} Service

Address: {var id=SVCADDR}

Meter Number: {var id=METER}

Dear {var id=CUSTNAME},

Our records indicate your utility account is past due as follows:

Disconnect Amount \${var id=PASTDUEAMT} Total Amount of Bill \${var id=TOTALAMT}.

Please disregard this notice if payment has been made. We may be able to work out a reasonable payment plan for you. Please call our Contact Center at 800-245-6977. Customer Service representatives are available Monday - Friday, 7:00 a.m. - 6:00 p.m.

Unless payment of \${var id=PASTDUEAMT} is received prior to {var id=DATE1}, service will be disconnected. Once service is disconnected, in addition to payment of the utility bill, a reconnection fee of \$49.00 plus tax (\$69.00 plus tax after business hours) will be required before service is restored.

You have the right to appeal the company's decision to the South Dakota Public Utilities Commission, 500 East Capitol, SD 57501, telephone number 800-332-1782.

Residential disconnection may be postponed for a 30-day period by presenting, prior to disconnection, a physician's certificate stating that disconnection would aggravate a resident's existing illness or handicap.

If you believe the charges on your bill are incorrect, we encourage you to contact us to discuss the disputed charges. If we cannot resolve the dispute, you should pay the undisputed portion of the bill and appeal the disputed amount to the South Dakota Public Utilities Commission.

Sincerely,

NorthWesternEnergy
Customer Care Department

Notice of Intent to Disconnect Service Due to Broken Payment Arrangement

Dear {var id=CUSTNAME},

According to our records on the above account, an arrangement for payment of past due utility charges has been made. Unfortunately, that arrangement has defaulted and the account is now subject to disconnect.

Please contact us regarding your account prior to {var id=DATE1}, to ensure service is not disconnected. Once service is disconnected, in addition to payment of the utility bill, a reconnection fee will be assessed for customers in the State of South Dakota and Nebraska (\$49.00 plus tax during business hours or \$69.00 plus tax after business hours) before your utility service is restored. A deposit of one-sixth the estimated annual billing may also be charged.

If you have any questions, please contact our Customer Care Department, Monday - Friday, 7 a.m. – 6 p.m.

Montana and Wyoming: (888) 467-2669

Dear {var id=CUSTNAME},

NorthWestern Energy recently received a non-sufficient funds payment in the amount of \${var id=AMOUNT1} for the above account. If this has already been paid, please disregard this notice.

To avoid further action, please pay the above amount in addition to a \$30.00 service charge or your service may be discontinued within seven (7) days of this letter.

Please remit your payment of cash, money order, or cashier's check to the nearest NorthWestern Energy office.

If you have any questions or concerns, please call us Monday - Friday, 7:00 a.m. - 6:00 p.m. at 800-245-6977.

Sheet No.10.1

Residential and Commercial Terms and Conditions

Electric Service

- For underground electric services, the Company will install underground facilities to extend a service line without charge to the extent of 150 feet of cable along the shortest feasible route from the distribution line to the point of service attachment.
For underground electric services requiring more than 150 feet of cable, the Customer will make a non-refundable contribution of \$1.00 per foot exceeding the 150 feet.
For underground electric services, the Customer will arrange and pay for all trenching and backfilling, consistent with the Company's specifications that are required for installation of the underground service line.
The Company has the right of access to the Customer's premise, including right-of-way, at all reasonable times for the purpose of installing, reading, inspecting, or repairing any service lines, meters, devices and other equipment and facilities used in connection with furnishing of any or all service, including any necessary repairs and maintenance, or for the purpose of removing its property and for all other proper purposes.
In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's lines, the Customer will obtain from the property owner(s) the necessary consent to install and maintain in said premises all such electric equipment as is necessary or convenient for supplying electricity to the Customer.
The Customer will properly protect the Company's property on the customer's premises from loss or damage and will permit no one who is not an agent of the Company to remove or tamper with the Company's property.

Natural Gas Service

- Residential customers using natural gas as their primary heating source and for water heating will be charged a \$90 connection fee for the first 150 feet of service pipe. Distance beyond 150 feet may result in the company requiring a Contribution in Aid of Construction (CIAC).
Residential customers using natural gas for space heating only, fireplace only, water heating only, natural gas grill only, or any combination other than primary space heating and water heating, as described above, NorthWestern Energy may require a CIAC to aid in the construction expense to serve the customer.
Mobile Home customers using natural gas as their primary heating source and for water heating will be charged a \$75 connection fee for the first 50 feet of service pipe. Distance beyond 50 feet may result in the company requiring a Contribution in Aid of Construction (CIAC).
Commercial and Industrial Customers requesting natural gas service will require an economic feasibility study. This study will take into consideration the total cost of serving the customer and the expected revenue from the Customer. If the Company determines the extension of service to the Customer is not economically feasible, the Company may require a Contribution in Aid of Construction from the Customer.
In instances where a CIAC is required, three years after the project has been completed, the Company will review the three-year average use. If actual volumes vary from projected volumes by 20% or more, the Company will charge or credit the customer for the variance, without interest, in projected CIAC.
Installation of gas service lines are scheduled by the company for completion during the regular construction season. The Company may make a charge for the added cost of the construction of a gas service line if the installation is required when the ground is frozen.
The Company will not install gas services and mains until the surface has been graded to within 6 inches of a permanent established elevation.
The company will not begin construction process until the \$90, or other predetermined connection fee has been paid in full.
The Company has the right of access to the Customer's premise, at all reasonable times for the purpose of installing, reading, inspecting, or repairing any meters, devices and other equipment and used in connection or disconnection of any or all service equipment, for the purpose of removing its property and for all other proper purposes.
In case the Customer is not the owner of the premises or of the intervening property between the premises and the Company's lines, the Customer will obtain from the property owner(s) the necessary consent to install and maintain in said premises all such gas equipment as is necessary or convenient for supplying gas to the Customer.
The Customer will properly protect the Company's property on the Customer's premises from loss or damage and will permit no one who is not an agent of the Company to remove or tamper with the Company's property.

Natural Gas Meter Placement Requirements

- Gas meters shall be located in ventilated spaces readily accessible for examination, reading, replacement or necessary maintenance. (For example, decks cannot be constructed over a gas meter.)
Gas meters shall not be placed where they will be subject to damage, such as adjacent to a driveway or other locations subject to vehicular traffic, under fire escape, in public passages, halls or where they will be subject to excessive corrosion or vibration.
Gas meters shall be located at least three (3) feet from any source of ignition or any source of heat, which might damage the meter.
Gas meters shall not be located where they will be subjected to extreme temperatures or sudden extreme changes in the temperature (e.g., air ducts, dryer vents). Meters shall not be located in areas where they are subjected to temperatures beyond those recommended by the manufacturer.
Minimum distances between gas meters to furnace intakes shall be followed per the manufacturer's specifications.
NorthWestern Energy requires a minimum of a four (4)-foot clear zone in front of the gas meter.
Conditions may exist which will require other restrictions or distances (e.g., multiple meters or commercial/industrial).
No structures or buildings can be located over underground natural gas lines.
Any exceptions require the approval of NorthWestern Energy prior to the start of construction. If violations or deviations are determined, the customer will bear the cost of corrections.

Electric Meter Placement Requirements

- Electric meters shall be located in spaces readily accessible for examination, reading, replacement or necessary maintenance. (For example, decks cannot be constructed over electric meters.)
Electric meters shall be installed so that the center of the meter cover will be no less than five (5), nor more than six (6) feet above the finished grade or permanent platform.
Electric meters shall not be placed where they will be subject to damage, such as adjacent to a driveway or other locations subject to vehicular traffic, under fire escape, in public passages, halls or where they will obstruct the opening of doors or windows or a location that may be considered hazardous.
NorthWestern Energy requires a minimum of a three (3)-foot clear zone in front of the electric meter.
Conditions may exist which will require other restrictions or distances (e.g., multiple meters or commercial/industrial).
Any exceptions require the approval of NorthWestern Energy prior to the start of construction. If violations or deviations are determined, the customer will bear the cost of corrections.

Dear {var id=CUSTNAME},

As a result of your conversation with NorthWestern Energy on {var id=SYSTEMDATE}, you have agreed to be the guarantor of utility services for:

Account Name: {var id=COMMENT2}
Account Address: {var id=COMMENT3}
Account Number: {var id=COMMENT1}
Guaranteed Amount: \${var id=AMOUNT1}

As a guarantor, you will be responsible for any unpaid utility bills effective {var id=DATE1} on the account. This agreement is in effect for one year from the date of this letter or until you provide NorthWestern Energy with 60 days written notice that you would like to be removed as a guarantor on this account.

During the next 12 months, if the account is closed or disconnected for non-payment and a balance remains unpaid by the customer, this balance will be transferred to your account, and an outside collection agency may be utilized to collect the balance.

It is your responsibility to inform NorthWestern Energy of changes of address, etc. to ensure we are able to contact you regarding the status of the account you have guaranteed.

If you have any questions, please call NorthWestern Energy at 800-245-6977. Customer service representatives are available Monday-Friday, 7 a.m. - 6 p.m.

Balance: {var id=AMOUNT1}
Service Address: {var id=COMMENT2}
Disputed Name: {var id=COMMENT1}

Dear {var id=CUSTNAME}:

You recently contacted our office to dispute your responsibility for the account above. It is important you complete the enclosed questionnaire and return it to us for review. You must also provide reasons as to why you believe these charges are not yours, as well as any evidence that supports these claims, two (2) forms of identification, and a police report stating that the charges billed to you were without your knowledge.

Please have the form notarized. It is important that you read and complete the instructions as indicated in this packet. If you do not complete all of the requirements, we will continue to hold you responsible for this bill. Upon receipt of the requested information, we will review your situation and make a determination regarding the disputed charges. We will contact you once a decision has been reached.

Please return the completed packet and documentation to:

NorthWestern Energy
Credit and Collections
Department 40 E. Broadway St.
Butte, MT 59701

We will not change the name on this account until proof of the new responsible party is provided.

Sincerely,

NorthWestern Energy

Welcome to NorthWestern Energy

We are happy to have you as a customer. To help you settle in, we've put together some useful information about your electric and gas services, the many valuable programs we offer, and some of our company's policies and practices.

As an energy provider for more than 100 years, we're committed to delivering the energy and exceptional service our customers and communities count on – safely, efficiently and responsibly. To learn more about NorthWestern Energy or any of the subjects covered in this booklet, visit NorthWesternEnergy.com.

MY ENERGY

NorthWestern Energy makes it easy to manage your energy account right from our website. You can track your energy use, sign up for paperless billing, register for EZ Pay, make a one-time payment and report a power outage. You can even start, stop or transfer service if needed.

Register for your My Energy Account today:

1. Go to **NorthWesternEnergy.com**.
2. Click on the **My Energy Account** button.
3. Click on **Register for My Energy Account** under the User ID and password boxes.
4. Fill out the registration form and submit.
You will need your account number and one piece of personal identification information, such as your date of birth or Social Security number.
5. Once you have chosen your username and password, you will be able to log in to the portal dashboard whenever you want from wherever you are!

SAFETY

Reporting a Power Outage

When outages occur, we make every effort to restore power as quickly and safely as possible – day and night, weekends and holidays. If you experience a loss of power not caused by a blown fuse or tripped circuit breaker in your home, please report the outage immediately by calling NorthWestern Energy at 800-245-6977 or contacting us online from your My Energy Account.

Pipelines and Power Lines

At NorthWestern Energy, we're committed to your safety as well as the safe and reliable operation of our entire electric power line and natural gas pipeline system. When it comes to power lines, we urge you to look up, look out and always stay at least 10 feet clear. If you're planning on doing any digging, the law requires that you **call 811** at least two days prior to have underground utility lines properly marked.

The maintenance of buried gas piping downstream from the gas meter to gas-fired appliances or other various structures on the property is the responsibility of the home/property owner or current occupant. NorthWestern Energy is required to inform customers with privately owned natural gas or propane service lines of their responsibility to inspect and maintain their piping (Code of Federal Regulations 49 CFR 192.16). Customers should have the pipes periodically inspected for leaks, and metallic pipes should also be inspected for corrosion by qualified professionals. Any unsafe conditions should be repaired immediately or the flow of gas should be shut off. Piping that is not maintained may be subject to corrosion or leaking. When digging near buried gas pipes, the location of the pipes should be identified in advance and the excavation done by hand.

METER READING AND ESTIMATES

NorthWestern Energy reads your meter(s) approximately the same date each month. Your monthly bill reflects the amount of electricity or natural gas used since your last meter(s) reading. You can also check your energy usage at any time by logging into your My Energy Account.

A NorthWestern Energy meter reader needs unrestricted access to your meter(s). Please be sure to have your gates opened, dogs chained or secured inside, and a path cleared when your meter is scheduled to be read.

If our meter reader is unable to access your meter(s), your bill may be estimated according to your past electric or gas usage. Any variance from actual usage will be automatically adjusted with the next read of your meter. Estimated readings are indicated on your statement.

Customers in remote locations who are required to read their own meter(s) may submit meter readings online at NorthWesternEnergy.com or by calling our Contact Center at 800-245-8977.

REGULATION

NorthWestern Energy is regulated by the South Dakota Public Utilities Commission (PUC) and the Nebraska Public Service Commission (PSC). Any decision made by NorthWestern Energy can be appealed to the PUC/PSC.

South Dakota PUC: 800-332-1782

Nebraska PSC: 800-526-0017

UNDERSTANDING YOUR BILL

Customer Connection Charge

A \$10 Customer Connection Charge will appear on your first month's bill to help offset the costs of establishing your power, opening your account and handling other service-related matters.

Security Deposit

NorthWestern Energy generally requires a deposit to establish service, depending on your credit history or previous payment history. Interest is paid on the deposit the day it is received. After 12 months of prompt payments, NorthWestern Energy will refund your deposit plus any accrued interest back to your account. If you disconnect service, your deposit will be applied to your final bill.

NorthWestern Energy offers the following options in lieu of a deposit:

South Dakota/Nebraska Customers

- **Guarantor** – While you establish credit, use a satisfactory third party to assume responsibility for your account.
- **Reference Letter** – Establish credit by providing a letter of satisfactory credit from a previous energy provider.

South Dakota Customers Only

- **Early Pay** – While you establish credit, pay your NorthWestern Energy bills by their due dates.

PAYMENT AND BILLING OPTIONS

You have several payment options available to you:

- Sign up **online**, through your My Energy Account, for EZ Pay, which automatically deducts your monthly payment from your checking or savings account.
- **Speedpay** lets you make a payment online from your checking, savings or money market account, or by using your credit/debit or ATM card. (A convenience fee applies for debit or credit cards.)
- You can call one of our toll-free numbers to **pay over the phone**.
 - 800-218-4959 to use your checking, savings or money market account.
 - 877-361-4927 to use your credit/debit or ATM cards. (A convenience fee applies.)
- **Send us a check** in the mail.
NorthWestern Energy
40 E. Broadway • Butte, MT 59701-9394
- Stop by one of our convenient local offices (cash, checks and money orders accepted).
- **Pay by text** (learn more at your My Energy Account).

Late Payment Charge

Payments for statements not paid by the due date are subject to a late payment charge. A late fee of \$2 plus one percent of the unpaid utility balance will be assessed if not paid prior to the due date indicated on your bill. Any payment returned by the bank to NorthWestern Energy will be subject to a \$15 return-payment fee.

Budget Billing

NorthWestern Energy offers a Budget Billing program in which your monthly utility bill will be nearly the same each month as we average your yearly energy costs into more affordable monthly payments. This program works well in conjunction with the EZ Pay program.

Efficiency Plus

As a NorthWestern Energy customer, you have access to a wide variety of energy efficiency programs. From rebates and incentives, to numerous electric and natural gas money-saving tips, we make it easy to better manage your budget as well as your energy usage. To learn more about all the programs and rebates offered, call 800-823-5995 or visit NorthWesternEnergy.com/Eplus.

DISCONNECTING, RECONNECTING OR TRANSFERRING SERVICE

Disconnecting Service

If you would like to have your electric or natural gas service disconnected, please let us know at least one business day in advance.

You also can disconnect service online. From your My Energy Account dashboard, click on Service Requests in the blue main navigation and then click on Transfer/Discontinue in the grey bar to the left. Fill out the form to schedule when you'd like service to stop. You also can disconnect service by calling our Contact Center at 800-245-6977.

If at any time a hazardous condition is discovered, NorthWestern Energy may immediately disconnect service until the condition is corrected. When possible, you will be notified in advance of such a discontinuance.

While we do not like to disconnect or refuse service to any of our customers, sometimes it may be necessary for reasons that include:

- Nonpayment of an energy bill.
- Failure to pay a required deposit or meet credit requirements.
- Violation of NorthWestern Energy's rules on file with the Regulatory Commission.
- Failure to meet the terms of contract for service in furnishing those things necessary to obtain service.
- Failure to allow access to NorthWestern Energy equipment located on the customer premises for meter reading, inspection, maintenance, replacement of equipment or to conduct investigations for hazardous conditions.
- Unauthorized use or tampering with NorthWestern Energy's service equipment.

Disconnection Due to Nonpayment

Customers who do not pay their bill are subject to having their service disconnected. The customer will need to pay all the amount due on the account, including late payment charges, to avoid a disconnection. However, we realize that financial emergencies occur. If you receive a disconnection notice and cannot pay by the disconnection date, please call NorthWestern Energy at 888-487-2684 to discuss possible payment arrangements.

The following conditions are taken into consideration **prior** to disconnecting your service:

- Only the service for which the bill is delinquent may be disconnected.
- In cases of fraud, illegal use or when it is clearly indicated that you are preparing to leave, we will provide written notice giving you additional time in which to pay the bill.
- If this is your first disconnection notice, we will attempt to notify you by telephone, personal visit or certified mail and provide you the information about your right to appeal to the PSC/PUC.
- If a bona fide or just dispute concerning the bill exists. A bona fide dispute is defined by your paying the undisputed portion of a bill and contacting the PSC/PUC within the required time frame.
- If you present a physician's certificate stating that disconnection would aggravate an existing medical emergency.
- Your service will not be disconnected on any Friday, Saturday, Sunday or legal holiday or at any time when NorthWestern Energy's business offices are not open to the public.
- If you receive both gas and electric service, you may have payments applied to either portion in order to avoid disconnection of that service.
- In a landlord-tenant situation, where the service is in the landlord's name, NorthWestern Energy will not disconnect the service until the tenant has been offered the service in their own name.

Reconnection After Nonpayment

When service has been disconnected for nonpayment, the following conditions apply for reconnection:

- You must pay all past due utility bills, including late-payment charges.
- You must pay the applicable reconnection charge.
- You may be required to pay a deposit or an increase to an existing deposit.

Transferring Service

If you plan to move to another location within the NorthWestern Energy service area, you can transfer your service to the new address.

If you would like to have your electric or natural gas service transferred, please let us know one day in advance.

From your My Energy Account dashboard online, click on Service Requests in the blue main navigation bar and then click on Transfer/Discontinue in the grey bar to the left. Fill out the form to schedule the transfer. You can also transfer service by calling our Contact Center at 800-245-6977.

NorthWestern Energy has received notice of bankruptcy petition.

According to Section 366 of the bankruptcy laws, a utility may require adequate assurance of payment to be made for continued service within 20 days of the date of filing.

A post-petition account has been established and is referenced by the above account number. A deposit in the amount of \${var id=AMOUNT1} has been assessed on this account.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669 South
Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Sincerely,

NorthWestern Energy

Dear {var id=CUSTNAME},

Our records indicate you are enrolled in NorthWestern Energy's Budget Billing Program. This program is a convenient way of paying the same amount each month. The review of your account shows that payment is past due. If the past due amount is not received within 10 days of this letter, the account will be removed from the program prior to your next billing. If the account is removed from the program the account balance will be billed in full. To be eligible for reenrollment in the Budget Billing Program the total account balance would need to be resolved.

NorthWestern Energy's Budget Billing Program makes paying your monthly utility bill easy. To make this process easier, we offer NorthWestern Energy's EZ Pay Program. With NorthWestern Energy's EZ Pay Program, your utility bill is automatically withdrawn from your bank account on the day of your choice.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669 South
Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Sincerely,

NorthWestern Energy
Customer Care Department

T

Dear {var id=CUSTNAME},

After reviewing our records, we have determined that within the past 12 months, you have received three or more disconnect notices on your utility account, or have had service disconnected one or more times due to non-payment. According to our credit policy, this demonstrates unsatisfactory credit.

Because of this, your account has been assessed a deposit in the amount of \${var id=AMOUNT1} which is equal to one sixth of your estimated annual utility charges. This deposit will be set to bill in four installments beginning with your next bill.

To re-establish satisfactory credit with NorthWestern Energy, you must receive less than three disconnect notices or not have services disconnected for non-payment for a 12 month period. Upon obtaining satisfactory credit, the deposit amount and accrued interest will be applied to your utility account.

If you wish to discuss your account with a NorthWestern Energy representative, please contact our Customer Care Center at 800-245-6977.

Sincerely,

NorthWestern Energy
Customer Care Department

RE: Budget Bill Annual Review

As a valued participant in our Budget Billing Program, we want you to be aware of an upcoming change to your monthly payment. Beginning with your next billing statement, your new Budget Billing amount will be \${var id=BUDGETAMT}.

This amount was calculated based upon the past 12 months of usage history and the rates currently in effect, adding in any overpayment or underpayment balance. This amount is then divided into 12 equal payments.

The change in your monthly payment amount may be the result of changing costs of electricity or natural gas supply or significant changes in your usage pattern in your home or business.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669 South
Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Sincerely,

RE: Budget Billing Enrollment

Thank you for enrolling in our Budget Billing Program. By enrolling in this program, your monthly utility bill will be nearly the same each month. We average your yearly energy costs so you gain the convenience of knowing how much your monthly payment will be, regardless of the weather.

Beginning with your next bill, your Budget Billing amount will be {var id=BUDGETAMT}. Your Budget Billing amount is calculated using the past 12 months of usage history at the current electric and/or gas rates in effect. This amount is then divided into 12 equal payments.

Your account will be reviewed on a periodic basis, and the monthly budget bill amount will be adjusted if considered necessary. If the amount does change, you will receive a notice from us. This will give you time to plan your budget accordingly.

Budget Billing payments should be received by the due date each month to avoid being removed from the program.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Sincerely,

NorthWestern Energy

RE: Budget Bill Quality Review

As a valued participant in our Budget Billing Program, we want you to be aware of an upcoming change to your monthly budget amount. Beginning with your next billing statement, your new Budget Billing amount will be \${var id=BUDGETAMT}.

Your account is reviewed periodically to ensure your current budget billing amount reflects an accurate average of your account activity. Changes to your monthly budget amount were calculated by reviewing your energy use of the past year applying this energy use to the current cost of service, and factoring in any remaining account balance. This amount is then divided into equal payments over the next 12 month period. The change in your monthly payment amount may be the result of changing costs of electricity or natural gas supply or significant changes in your usage pattern in your home or business.

If your monthly Budget Bill amount is higher due to the remaining account balance and you would prefer to lower your monthly budget amount, please contact NorthWestern Energy to review your options.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Dear {var id=CUSTNAME},

Congratulations! Because you have promptly paid your NorthWestern Energy bill the past 12 months, you have established satisfactory credit with us.

We would also like to take this opportunity to inform you of several payment options NorthWestern Energy offers to make bill paying easier:

- EZ Pay - This option allows you to have your monthly payment automatically withdrawn from your checking or savings account on the day of your choice.
- Credit Card Payment - You can pay your NorthWestern Energy bill using your Visa, Mastercard, or Discover card. You may also have your monthly energy charges paid by your credit card automatically.
- Budget Billing - This option allows you to pay an equal amount each month on your NorthWestern Energy bill.

If you have any questions or would like to sign up for one of these payment options, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer Service Representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

**Section No. 6
Original Sheet No. 36**

Review the following Terms and Conditions:

- I authorize NorthWestern Energy to electronically deduct from my bank account (i) my monthly utility bill on the due date of my bill and (ii) my final utility bill promptly upon any change in the status of my utility account to inactive.
- I understand each month I will receive my bill which will display the amount that will be deducted from my bank account and the date on which it will be deducted. I understand that EZ-Pay Program payments for my account will not start until my bill reflects that the bank draft will occur. In the meantime, I understand that I will need to continue making my payments.
- I understand my monthly due date may vary slightly. If the due date falls on a weekend or a holiday my payment will be deducted the following business day.
- I have the option of choosing a preferred due date that is compatible with my billing cycle. You may obtain the due date range you are eligible for by contacting NorthWestern Energy at the Customer Service numbers listed below.
- I understand if my payment is dishonored, NorthWestern Energy retains the right to collect the dishonored payment along with service charges if applicable.
- I understand that I may discontinue my participation in the EZ-Pay Program at any time by notifying NorthWestern Energy Customer Service (contact information below). I understand that my request to discontinue EZ-Pay Program participation must be received at least three business days in advance of the due date of my current bill to stop the EZ-Pay Program payment on such due date. I understand that a request received less than three business days before the due date will be processed in the next billing cycle following that due date.
- I understand that, if at any time my utility account is rendered inactive, my participation in the EZ-Pay Program will automatically end.
- I agree to be bound by the Terms and Conditions on this page.

Re: Preferred Due Date on EZ Pay Authorization

Dear {var id=CUSTNAME},

NorthWestern Energy recently received your authorization for the EZ Pay Program. In reviewing the preferred due date that you have selected, we need to modify the due date so it is compatible with the monthly billing period for your utility bill. We have attempted to contact you but were unable to reach you. Meanwhile, we have changed your preferred due date from the {var id=COMMENT1} to the {var id=COMMENT2}.

If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer Service Representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Thank you for choosing our EZ Pay Program.

Sincerely,

NorthWestern Energy
Customer Care Department

Dear {var id=CUSTNAME},

Thank you for enrolling in NorthWestern Energy's EZ Pay Program. We are currently completing the account verification with your financial institution. After this process is complete, you will see the words Bank Draft with a date (MMDDYYYY) on your next Northwestern Energy bill statement.

Please continue to make your utility payments as you have in the past until you see this wording.

As an EZ Pay customer you may choose which day of the month you want your utility payment deducted from your bank account in relation to your normal billing date. This is called a Preferred Due Date. If you opt to select a Preferred Due Date and the date selected falls on a weekend or holiday, we will deduct the authorized payment from your account the following business day. The actual payment date also may vary if you choose the 29th, 30th or 31st as a Preferred Due Date.

If you would like to select a Preferred Due date or have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Sincerely,

NorthWestern Energy
Customer Care Department

Dear {var id=CUSTNAME},

Thank you for your recent request to participate in NorthWestern Energy's Landlord Agreement Program. We have received your Landlord Agreement but are unable to activate this agreement at this time.

Because we were unable to reach you by phone, we are returning your agreement for the following reason(s):

{var id=COMMENT1}
{var id=COMMENT2}

Please be aware this agreement is not active at this time. Therefore, if you have a tenant moving out of your property prior to us receiving your completed agreement, it is important for you to call our Contact Center if you wish to have the services remain active in your name.

Please call our Contact Center, to ensure completion of the items required to activate your Landlord Agreement with NorthWestern Energy.

Dear {var id=CUSTNAME}

According to our records, you have an active Landlord Agreement with NorthWestern Energy. At this time, your agreement has been suspended because of a past due amount on your account(s) covered by your NWE Landlord Agreement.

The tenant at the above-referenced address has requested a final bill and services may be scheduled for turn off.

If you wish to assume responsibility for these services, you must pay all past due balances. If you have any questions, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

RE: Preferred Due Date

As a valued NorthWestern Energy EZ Pay/Preferred Due Date participant, we wanted you to be aware of an upcoming change to your account. We review accounts annually to ensure preferred due dates are appropriate.

It was discovered that your preferred due date no longer falls within an acceptable due date window. Your previous due date of the {var id=COMMENT1} of each month has been moved to the {var id=COMMENT2} of each month. This change will be reflected starting on your next {var id=COMMENT3} bill.

If you are satisfied with the new preferred due date, no response is needed. If you would like a different preferred due date, please call our Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer Service Representatives are available Monday-Friday, 7:00 a.m. - 6:00p.m.

RE: Preferred Due Date

In a recent review of your account, we learned a preferred due date had been placed on your account. To qualify as a preferred due date participant, you must be enrolled in NorthWestern Energy's EZ Pay Program. Because you are currently not on EZ Pay, the preferred due date has been removed from your account, and your payment will be due on the date indicated on your statement.

If you have any questions, please call Contact Center as follows:

Montana and Wyoming: 888-467-2669
South Dakota and Nebraska: 800-245-6977

Customer service representatives are available Monday-Friday, 7:00 a.m. - 6:00 p.m.

Over the last 1 month(s), your electric usage has been over estimated. The reason for the estimation was due to the fact that we were unable to read your meter.

An actual read was obtained from your meter on 05/02/2014. The adjustment on your bill is based on usage between the last actual read and the current read. Because an actual reading was obtained, the usage was redistributed among the month(s) involved.

Below is a summary of the adjustment that appears on your enclosed bill. The Total Adjusted Dollar Amount of \$9.69 is reflected on your bill in the Account Summary section in Adjustments/Transfers.

Read Dates		Usage (kwh)			Dollars		
From	To	Original Bill	Corrected Bill	Adjusted Usage	Original Bill	Corrected Bill	Adjusted Dollars
04/02/14	05/02/14		100	100		\$9.69	\$9.69
	Totals		100	100		\$9.69	\$9.69
