

In April 2014, Black Hills Power, Inc. filed an application with the South Dakota Public Utilities Commission (PUC) for a change to the Environmental Improvement Adjustment rate. This rate change affects all South Dakota Retail Customers. For the typical residential customer using 650 kWh per month, this adjustment will decrease the electric bill by \$0.0005 per kWh or approximately \$0.33 per month.

The application is available in this office for inspection. Please inquire at the customer service desk.
