Xcel Energy

Case No.: EL15-014

Response To: South Dakota Public Utilities Commission Data Request No. 1-3

Requestor: Karen Cremer

Date Received: May 11, 2015

Question:

What is the forecasted amount of cancellation charges that these customers would incur due to switching rate codes or adjusting their PDL if the requested waiver is not approved?

Response:

The Company does not have a forecast for a response to the proposed waiver that seeks to anticipate future increased interruption requirements. For the last several years, we are not aware of any customer that has cancelled interruptible service or reduced their interruptible load commitment without providing the required six month notice to avoid a cancellation charge.
