Subject: RE: Willow Creek Temporary Discharge Permit

---

Dave,

When dewatering is added to an active construction project, no permit approvals are issued. Please take this email as confirmation that the discharge information has been received, and will be entered into the project information for the construction permit issued for this project. Please make sure to familiarize yourself with the requirements of the General Permit for Stormwater Construction in regards to discharges from the project.

Please let me know if you have any further questions or concerns. Have a great day.

Katie Adair

**Subject:** [EXT] Willow Creek Temporary Discharge Permit

Hello, Katie- You and I spoke a week ago about the temporary discharge permit application that I had submitted for Willow Creek Wind near Newell.

You confirmed that you had received the application and that we were covered. Is there something that you can send me an email or something that confirms this?

Our client wants confirmation.

Thank you!

Dave
