Land Use Classification

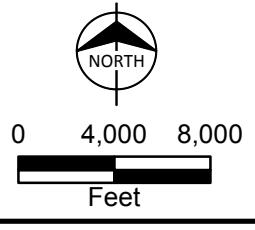

- Pasturelands, rangelands, and undisturbed native grasslands
- Haylands
- Land used primarily for row and nonrow crops in rotation
- Other (i.e., barren lands, shrubland, open water)
- Rural residences and farmsteads, family farms, and ranches
- Noise sensitive land uses

Note: The following land use classifications were not identified within the Project Area: irrigated lands; existing and potential extractive nonrenewable resources; other major industries; residential; public, commercial, and institutional use; or municipal water supply and water sources for organized rural water systems
