December 22, 2015

To the Parties in Docket EL15-046:

During the December 22, 2015 PUC Commission meeting discussion was held on the proposed addition to the Xcel tariff of a *Customer Data Privacy* policy. I commend Xcel for initiating the discussion on this tariff addition as a means of protecting their customers' data through a policy that is transparent.

Through my questioning of Xcel representatives in that meeting I became convinced that several improvements could be made to the tariff addition. I would offer the following for consideration by the company and Staff:

1. On Sheet No. 6-7.2, third paragraph, seventh bullet point: Amend the sentence to read "Energy Usage Data specific to a customer's account excluding data that is generated from sources behind the meter."
2. On Sheet No. 6-7.2, third paragraph, eleventh bullet point: Amend the sentence to read "Details about a customer's home (such as dwelling age, size and type, and details about appliances and other energy-related equipment used in the home) as provided through voluntary participation in a Company energy efficiency program."

Thank you for your consideration of these changes. I look forward to reviewing the revised tariff filing in an upcoming PUC meeting.

Sincerely,

Chris Nelson
Commissioner
