Xcel Energy

Docket No.: EL16-018

Response To: South Dakota Public
Utilities Commission

Data Request No. 2-13

Requestor: Darren Kearney

Date Received: November 2, 2016

Question:

For the business and residential saver's switch programs, do the benefit/cost models only include the year's incremental participation or total participation? If the benefit/cost models include total participation, please explain how Xcel models the programs in order to ensure benefits are not double counted.

Response:

Our business and residential Saver's Switch programs only analyze the benefit/cost model for incremental participation including replacement switches (which begin a new lifetime for the measure).
