Response:

At this time, Otter Tail's request is only for the 2019 program year. Otter Tail recognizes the current EEP Plan is in place through 2019 and will include the South Dakota Public Utility Commission's decision in this docket when developing the 2020-2022 South Dakota Energy Efficiency Program Plan. However, it is important for parties in this matter to understand the customer is making a large good-faith investment in year one with the belief associated rebates will be approved to be paid over three years.
