X I am a supporter of wind energy. I am writing to you to share my support of the Crocker Wind Farm a Geronimo Energy Wind Farm development located in Clark County, South Dakota.

- I support the Crocker Wind Farm because it will provide economic benefits to the local economy, tax base, schools and local residents and county and town. Our community, county and state need the economic benefits.
- I support the Crocker Wind Farm because I support green energy and the numerous benefits for the local and broader environment, including water consumption savings and carbon dioxide emissions reductions.
- I support the Crocker Wind Farm because I support the rights of landowners, which allows the landowners to use their land to the fullest potential allowing them to harvest the wind a plentiful and valuable resource in South Dakota.

Other comments for support:

*It's a clean source of power, renewable source, cost effective and extra savings for land owners. Wind energy is clean and reduces our dependence on coal oil and gas. I am 100% in support of wind farms for a lot of reasons.*
