---

Information Request:

Has any Third Party requested Customer meter data in the past five years? If yes, please provide the entity and the data type requested.

Attachments: 0

Response:

OTP understands this request as referring to Third Party requests for aggregated customer meter data. OTP has no record of receiving any requests for such data in South Dakota in the past five years.

From time to time OTP receives third party requests for a specific customer's Meter Data. Typical situations include landlords and building owners seeking Meter Data for a specific unit(s), requests from energy assistance agencies seeking to provide energy assistance to low income customers, and requests from consultants hired by commercial/industrial customers seeking to the customer's energy efficiency. OTP requires a signed written authorization from the customer before releasing the information to the third party.
