Response:

Please see Attachment 1 to IR SD-PUC-01-04 for each rebate awarded in 2016, the amount of the rebate, and the energy savings attributed to the rebate. The total kWh savings excludes the savings attributable to the Residential Air Conditioning Control program because Otter Tail's Energy Efficiency Program does not pay an incentive to the customer. Customers receive a \$7/month credit for each of the four summer months (June-September) through retail rates.
