

Appendix L: Town of Astoria Resolution of Support

**Town of Astoria
Resolution 2017 100**

A Resolution of Support for the Proposed Astoria Station

Whereas, the Town of Astoria believes the Astoria Station will have a positive impact on the local and regional economy through tax benefits, infrastructure improvements and jobs.

Whereas, the Town of Astoria believes the Astoria Station will help Otter Tail Power Company continue to reliably and affordably serve customers in Astoria and the region by providing energy when customers need it—such as when customers are using more energy than usual or when renewable generation conditions aren't ideal.

Now Therefore Be It Resolved, that the Town of Astoria supports Otter Tail Power Company's proposed Astoria Station.

Rebecca Roob, President
