**Subject:** RE: [EXT] CWF update

**The President of the United States of America, Donald J. Trump, just stated that if you live near a wind tower your home value will drop by 75% and that the noise from wind turbines causes cancer. This statement is coming from the highest officer in the land, therefore should we start sueing Geronimo and the State of SD? The PUC should also immediately stop the Crocker Wind Farm because you stated that if the wind farm would cause harm, it should not go forward. What more proof do they need than a statement from the Commander in Chief?**

The words of the Commander in Chief should carry a lot of weight—and therefore you should act ASAP. Don't you believe your President?????
