Subject: [EXT] EL 18-026 filing

Ms. Patricia VanGerpen
Executive Secretary
South Dakota Public Utilities Commission
599 E. Capitol Avenue
Pierre, SD 57501-5070

Dear Ms. Van Gerpen,

Would you please file the following in Docket EL 18-026:

RE: Before the Public Utilities Commission of the State of South Dakota
In the Matter of the Application by Prevailing Wind Park, LLC
for a Permit of a Wind Energy Facility in Bon Homme County,
Charles Mix County and Hutchinson County, South Dakota,
for the Prevailing Wind Park Project
Docket EL 18-026

On 9 August, 2019 I made, by means of email, inquiry of PUC Staff concerning the when, where and how of the Public Utilities Commission's possible actions concerning the 6 August, 2019 Prevailing Wind Park, LLC's request of the Public Utilities Commission to move turbine #8 more than 250 feet. Due to the rather specious nature of the "reason" (having long ago learned the difference between a reason and an excuse) given for this request, it seemed incumbent upon the Commission to inquire more deeply into this matter. Upon being informed some days later that the matter would likely not be addressed on the agenda of the 21 August, 2019 PUC meeting but rather on the agenda of the 3 September, 2019 PUC meeting, I prepared to appear before the Commission at that time to convey concerns of forced participants of the Prevailing Winds power plant project concerning this request.

Apparently said inquiry may not have been perceived as sufficient cause for Staff to request "further review" (Condition 23, Final Order) of the requested "material change", as no small amount of activity has since taken place at the proposed new site. However, I do indeed intend to make my grievances against this proposed "material change" known before the Public Utilities Commission at the 3 September, 2019 meeting.

Sincerely,

Sherman Fuerniss
