Re: PUC Docket EL18-053
Deuel Harvest North Wind Farm

I am for this wind farm up by Alzamont. I expect to benefit from this wind farm as I own one section of land 2-3 miles east of that town. This development will create many jobs (400) during construction and approximately 15 fulltime jobs after completion. It appears the project will create benefits of approximately \$8 million per year. The Company (Invenergy) will contribute \$30,000 per year to a scholarship fund for students at Deuel High School. I plan to contribute \$1,000 per year to the same scholarship fund from my expected payments. Please support this wind farm. This wind farm will help farmers directly and the community directly and indirectly.
