Subject: [EXT] PUC Docket EL18-053 Deuel Harvest North Wind Farm

To Who this may concern.

March 23,2019

I write this letter today in support of the current proposal of the Invenergy proposed wind farm. Our family has been involved in farming and owning up to 680 acres in Deuel County since 1962. We have struggled to make ends meet in many of those years. We are currently down to 440 acres due to struggles, difficulties, and life changes. Two years ago our house and machine shed were destroyed from straight line wind. We have rebuilt a small but livable house. The machine shed has not been rebuilt. The two proposed towers to be put on our land will help ease a struggle my father and mother as well as myself have endured for almost 60 years. The current situation farmers are struggling with in this embargo situation is unknown. The wind power towers are a known resource of revenue for both the land owner and the entire Deuel County economics! Please support the land owners and people of Deuel County by supporting the wind farm. The next generation is depending on this! Main streets are becoming blocks of crumbling structures. We need your support!!! Thank you.

My regards

Jack Hoeke
