RE: Commission Actions, Commission Dockets, Electric Dockets, 2018 Electric Dockets; EL18-053

Dear Sir:

1. I am a landowner in Altamont Township. This great land God created is only for farming to produce food to feed millions of people in America.
2. I am definitely opposed to giving you or anyone else permission to construct these unsightly wind turbines in any size, shape or form.
3. They are a hazard to migrating water fowl and they also disturb all wildlife existences.
4. They also make a constant noise. No peace or quiet near them.
5. In conclusion I am very adamant in opposing wind turbines being constructed within 100 miles of my land, in fact I am opposed to them being constructed in Deuel County, South Dakota.

Sincerely,

Ramona Kelley
