**Subject:** [EXT] Conflicts of Interest Docket EL18-053

Greetings,

I am currently listening to your discussion on Deuel Harvest's Permit. And, I know that you won't see this until later...but, Commissioner Hanson is right about Conflict of Interest. It is wrong. And by you others voting to leave it up to us 'lay people' to prove 'Conflict of Interest' is wrong!

Do you know how many thousands of \$\$\$ [REDACTED] have spent to take out a lawsuit against Deuel County? The # I heard from [REDACTED] was [REDACTED] so far. Now, WHO has that kind of \$\$\$?

By you doing this, you are letting the local County Commissioners get away with whatever they want, because we cannot afford to go up against them. There has to be some sort of protection from our state!

PLEASE, do not let these huge companies run over you and our state because they have more \$!

We, in Deuel County, are left with a Commission board who are biased and have many 'conflicts of interest', and are still passing permits and making decisions illegally!

Can't you have some sort of rules?!?!

Jennifer Stanga Kolbeck
