To Whom It May Concern,

I am writing to you to show my support regarding PUC Docket EL 18-053 - Deuel Harvest North Wind Farm.

My dad was from Clear Lake and was a very active participant in the community. He was a farm manager and farm owner there for many years. He always believed in trying to help communities move forward and always knew progress was inevitable. I was born and raised there, too. I am now a farm owner and I have adopted his way of thinking.

I feel like the wind project can be valuable in many ways:

- \*\* It will create many jobs in the community.
- \*\* There will be economic development from the project.
- \*\* There will be benefits for the community...scholarships which will benefit students at the high school!!
- \*\* It will provide additional income to support farming families as well as my own family.

I want the very best for Clear Lake and I feel like this project would be a real boost for that community.

Thank you for your attention to this matter,

Diane Yamanaka
