**REGEIVED** OCT 1 3 2017 SOUTH DAKOTA PUBLIC UTILITIES COMMISSION

Public Utilities Commission Staff SD Public Utilities Commission Capitol Building, 1st floor 500 East Capitol Avenue Pierre, SD 57501-5070

Re: <u>PUC Docket EL17-028 - In the Matter of the Application by Crocker Wind Farm, LLC for a</u> <u>Permit of a Wind Energy Facility and a 345 kV Transmission Line in Clark County, South</u> <u>Dakota, for Crocker Wind Farm</u>

Dear PUC Staff:

October 13, 2017

The South Dakota Department of Health has been requested to comment on the potential health impacts associated with wind facilities. Based on the studies we have reviewed to date, the South Dakota Department of Health has not taken a formal position on the issue of wind turbines and human health. A number of state public health agencies have studied the issue, including the Massachusetts Department of Public Health<sup>1</sup> and the Minnesota Department of Health<sup>2</sup>. These studies generally conclude that there is insufficient evidence to establish a significant risk to human health. Annoyance and quality of life are the most common complaints associated with wind turbines, and the studies indicate that those issues may be minimized by incorporating best practices into the planning guidelines.

Sincerely,

Kim Malsam-Ripdon

Kim Malsam-Rysdon Secretary of Health
