DOCKET NO. EL18-003

Dear Ms. Van Gerpen:

Northern States Power Company, doing business as Xcel Energy (NSP or the Company), submits this pre-construction filing to the Commission for the 302.4 MW wind energy conversion facility located in Grant and Codington Counties South Dakota known as the Dakota Range I & II Wind Energy Facility.

The Commission's July 23, 2018 Site Permit – Permit Condition 14 states:

Applicant shall provide the Stormwater Pollution Prevention Plan (SWPPP) to the Commission when Applicant has a final design for the Project. The SWPPP will outline the water and soil conservation practices that will be used during construction to prevent or minimize erosion and sedimentation. The SWPPP will be completed before submittal of an application for a National Pollutant Discharge Elimination System (NPDES) general permit for construction activities. All contractors to be engaged in ground disturbing activities will be given a copy of the SWPPP and requirements will be reviewed with them prior to the start of construction.

In compliance with this Site Permit Condition, the Company provides the SWPPP as Attachment A to this filing.
