CITY ATTORNEY

Lincoln Union Electric Co.  
Alcester, S. D. 57001

Dear Sirs:

This is to confirm our telephone conversations on the electric services the City of Hawarden has in South Dakota.

The parties served own everything but the meters and the one transformer pole at the Terry Nilson farm.

Due to the poor construction of their line and the river, it is impossible to guarantee them service without some possible long interruptions. We have been fortunate in the past, but this could change.

Therefore, we are willing to transfer this territory to Lincoln Union Electric Company.

Yours truly,  
CITY OF HAWARDEN
