FLUENT IN FRENCH AND SPANISH

Experience

PERMITTING MANAGER | RES AMERICAS | 2016 – PRESENT

- Conduct initial site screening and determine permitting requirements for wind, solar, and transmission line projects
- Develop and maintain a constraints matrix for wind, solar, and transmission line projects
- Support Permitting Director for North Region to meet with permitting agencies and local officials, manage consultants, review environmental study results, and represent RES at public meetings
- Prepare state and local siting permit applications
- Prepare and implement community engagement plans

PROJECT MANAGER AND ENVIRONMENTAL PLANNER | TETRA TECH, INC | 2008-2016

- Manage environmental permitting tasks for wind energy and transmission line projects in North Dakota, South Dakota, Kansas, Oklahoma, and Texas.
- Develop project proposals, schedules and budgets, coordinate work with clients, staff, and subcontractors, and ensure the quality of documents. Won approximately \$3.5 million in project work in 2015.
- Coordinate the preparation of environmental studies for wind, solar, and transmission line facilities, including avian surveys, raptor nest surveys, bat acoustic monitoring, habitat evaluations, cultural resources inventories, wetland surveys, acoustic and shadow flicker studies, Phase I Environmental Site Assessments, and post-construction wildlife monitoring.
- Manage the preparation of NEPA and state environmental permitting documents.

ENVIRONMENTAL PLANNER | HICKS & COMPANY | 2005-2008

- Managed NEPA projects and coordinated with clients, legal counsel, and subcontractors.
- Researched and analyzed socioeconomic and environmental impacts of proposed transportation and waste facilities for environmental approval process.
- Supported the reporting and communication needs of projects throughout their lifecycle by developing NEPA documents, technical reports, presentations and other visual aids.
- Represented clients by presenting information at public meetings.

ENVIRONMENTAL COMPLIANCE SPECIALIST | TEXAS COMMISSION ON ENVIRONMENTAL QUALITY | 2004-2005

- Advised customers in complying with environmental regulations for air, water, and waste.
- Developed educational materials to make environmental rules more understandable for the public.
- Translated agency documents into Spanish for customer use.

PEACE CORPS VOLUNTEER IN HONDURAS | PEACE CORPS | 2002 -2004

- Organized and conducted workshops on environmental planning in eight municipalities, resulting in projects being approved by the U.S. Agency for International Development.
- Coordinated community efforts to build tree nurseries and transplant trees.
- Assisted a council of governments in the writing of its 2003 Annual Operating Plan and Budget.
- Worked with a local counterpart to develop a business plan, acquire funding, and implement a program for fuel efficient wood stoves.
