REQUESTING PARTY: Staff

SDPUC Request No. 1.10:

Provide a revised model removing all residential and C&I prescriptive measures with a TRC less than 1.0. Provide the impact removing each measure has on the Residential/Commercial & Industrial and Total Portfolio TRC results.

Response to SDPUC Request No. 1.10:

The portfolio results from removing the Residential and C&I Prescriptive measures with a TRC of less than 1.0 are:

Residential	1.05
C&I	1.25
Total	1.05

Please note that program and portfolio costs that are independent of participation were not adjusted in the results above. For example, program administrative costs were not adjusted due to the lower participation.

A revised model with the measures removed is attached as Attachment 1.10.
