### **INSTRUCTIONS FOR DOT-200**

#### APPLICANT:

- Complete all items in upper portion of form. Please print or type.
- 2. Prepare a separate sheet showing details of the proposed installation. The drawings should include:
  - a. Location of the facility dimensioned to the highway centerline and to the right-of-way line. Show all section lines and approaches that will be crossed. Show legal description on drawing, i.e., Section, Township, and Range for rural areas and Blocks and Lots in urban areas. Show box culverts, bridges and any other permanent features. No utility installation will be allowed on top of drainage pipes.
  - b. Installations on bridges must include details of method of attachment. Allow two (2) additional weeks for approval of the permit.
  - c. Utility company name, a North arrow, sheet number and total number of sheets if more than one. Use one side of sheet only.
  - Any other pertinent information.
- 3. Sign and submit one (1) copy of the request and one (1) copy of the attachment to the SDDOT Area Engineer for processing.

#### **DEPARTMENT OF TRANSPORTATION:**

#### Area Engineer:

- 1. Review request and complete lower portion of form.
- If request is not approved, return request to applicant stating reason for denial.
- 3. Obtain city recommendation and DOT Bridge/Roadway Design approval when applicable.
- 4. Forward to Region Engineer only if application location is within Interstate ROW.
- 5. If request is approved, forward request and all attachments to the Permit Manager, Office of Right of Way.

## PERMIT MANAGER:

- 1. Review request and if denied, return to applicant stating reason for denial with copy to Area Engineer.
- If request is granted, issue permit and send copies of the permit and attachments as follows:

Area Engineer (2 copies); Applicant (1 copy), and Record Center (original).
