Re: The South Dakota Department of Transportation reviewed the following proposal:

FAA Airspace Case #: **2018-WTE-10773-OE thru 2018-WTE-10817-OE**
Description: **Wind Farm**
Height Above Ground: **600 ft.**
Geographic Coordinates: **Lat: See FAA Airspace Case, Lon: See FAA Airspace Case**

The authority for review of construction proposals which may affect airspace within the state has been delegated to the Office of Air, Rail and Transit, Aeronautics Group.

Upon receiving and reviewing the FAA Airspace Case #'s listed above it has been determined that the FAA has issued Determinations of No Hazard to Air Navigation. The Aeronautics Commission has been notified of this proposed project on September 27, 2019. With FAA Determinations of No Hazard and due to the location of the project a South Dakota Aeronautical Hazard Permit is not required.

Any changes to either the locations or the overall heights of the proposed project must be submitted to our office for re-evaluation.

Please contact me at (605)773-3764 or via email at thomas.koch@state.sd.us if you have any questions or comments.

Sincerely,

Tom Koch,
SDDOT Office of Aeronautics
