**ALLEN ROBISH'S
DATA REQUESTS TO CROWNED
RIDGE WIND, LLC and
CERTIFICATE of SERVICE**

EL19-003

By and through your undersigned, Tornow Law Office, P.C., please find Intervenor Allen Robish's First Set of Data Requests to Crowned Ridge Wind, LLC. Please make and serve responses within 10 days from today's date. Intervenor Robish reserves the right to ask additional and follow up questions.

- 1.) During the Fall 2021 Sound Study, there were numerous times where Crowned Ridge Wind alleges that MISO requested a curtailment of turbines – in doing so, who specifically determined which turbines were to be curtailed and to what level was each such turbine curtailed? Be specific as to each such turbine curtailment.
- 2.) Knowing that the ordered mitigation plan required that the 2021 Study be conducted during similar weather patterns as present during the October 2020 Sound Study, Intervenor Robish respectfully requests to be provided weather data/patterns comparing October 2020 to the November 2021 study timeframe of said weather data/patterns. Be specific.
- 3.) Please identify who, when and why were the initial three (3) properties selected to be Sound Study tested in 2021 and, as such, why was an unoccupied property selected for testing as opposed to such Sound Study testing at a location like Robert Welder's property which has otherwise been determined to be out of compliance? Be specific.

Dated this 26th day of April 2022, at Sioux Falls, South Dakota.
