I did send an email to your lawyer they day you filed it saying it should probably be filed with the court because the PUC loses jurisdiction over most permit decisions while an appeal is pending. Then it is a question for the court. I also suggested your letter be posted as a “motion” but no one agreed with me on that one because it wasn’t titled as such.

Call me tomorrow and we can talk about how to proceed if you want.

Kristen,

On 9/18/19, Intervenors submitted a formal request for revocation of the permit of Crowned Ridge 1 citing the significant changes in the project, among other things.

Our request was posted to the docket, however we are aware of no action or response to our request. Please advise us of the action the PUC intends and the timeline we can expect.

Thank you.

Sincerely,

Intevenors
