Subject: [EXT] Docket EL 19-003

Commissioners Fiegen, Nelson, Hanson and Staff: I strongly oppose granting a waiver for Crowned Ridge Wind for two reasons. 1. I don't feel add on pieces for the LNTE are a good replacement for blades constructed as LNTE blades. Add ons will not be as durable. 2.

Turbine CR 120 in Stockholm Township should be replaced. An 80M 1.7MW turbine was approved in the CUP by the Grant County BOA. A 90M 2.3

was constucted by Crowned Ridge. This deeply concerns me because a non-participating family with a handicapped child lives 2200 feet to the north. William Street Grant County resident
