Subject: [EXT] Docket EL 19-003

Dear PUC Commissioners and Staff,

I am writing to voice my opposition to the waiver request of Crowned Ridge Wind. Crowned Ridge Wind is not in compliance with the permit issued by the PUC. Crowned Ridge had plenty of time to have noise canceling devices on the turbine blades if they had been competent. This is not due to weather, rather due to the recklessness and disorganized fashion by which Crowned Ridge installs wind factory farms. The public has never been, nor will ever be, this corporation's concern. Instead greed, inaccuracies of promises, and sloppy work is the theme. I request that the commission enforce every provision in the permit. To do otherwise sets a dangerous precedent that rules and agreements, that process and decisions aren't enforceable, and that our commissioners can be manipulated and steered by corporate interests, not the interests of the community population.

Sincerely,

Tracy Rosenberg
