500 East Capital Avenue
Pierre, SD 57501-5070

Re: Docket No. EL19-003
Application to the SD PUC for a Facility Permit to Construct
A 300 Megawatt Wind Facility

Dear Ms. Van Gerpen:

As directed by the Commission in its January 9, 2020 Order in Docket No. EL19-003, Crowned Ridge Wind submits its progress report explaining the status of low noise tailing edge attachments (LNTE).

The installation of LNTE attachments on turbine blades continues although progress to date has been slow owing to weather conditions and frost restrictions. Crowned Ridge Wind has completed LNTE installation on turbines 21 and 33 and expects that LNTE attachments on the following currently curtailed turbines will be completed by June 15, 2020 barring unforeseen frost conditions: 29, 37, 41, 44, 46, 48, 50, 52, 61, 63, 64, 66, and 95. Crowned Ridge Wind also expects that LNTEs will be attached on all turbines by August 15, 2020.

If you have any questions, please contact me.

Yours very truly,

LYNN JACKSON, SHULTZ & LEBRUN, P.C.
