Re: Docket Number EL 19-007

Dear Commission Members:

We are writing in regards to the upcoming docket hearing in reference to Engie's Triple H Wind Project and would like to extend our support of the project.

First and foremost, we believe in renewable energy and the opportunity for this project to supply affordable electrical power to areas in need. The positive economic impact this project will have upon our counties and the landowners is huge. As a small agricultural community, it is important that we continue to grow and prosper. The wind projects are one way for us to add long-term revenue and jobs to help stabilize our rural economy. We also have faith that Engie will treat our counties and the landowners, such as us, with respect and professionalism as they proceed with construction and operation of the project.

Please accept this letter as our support of the Triple H Wind Project in Hyde and Hughes Counties.

Sincerely,

Clifford Volek
Charles Volek
Keith & Janice Volek
