RE: Triple H Wind Project – Notification of Construction

To whom it may concern,

On July 9, 2019, the South Dakota Public Utilities Commission (PUC) approved a Facility Permit for the Triple H Wind Project located in Hyde County, South Dakota (Docket EL19-007). Pursuant to Condition 4 of the Order, this letter provides notification of construction of the Triple H Wind Project and provides additional information.

- Construction of the Project will commence on August 8, 2019.
- Enclosed with this letter is a copy of the Final Decision and Order Granting Permit to Construct Facility along with the Permit Conditions as approved by the PUC.
- During construction, equipment will be transported along public roads in order to deliver components of the Project to locations where they are needed. Haul trucks will use pilot cars, road signage, safety flag people, and other methods to ensure the safety of the community. The deliveries will also comply by the Haul Road Agreement that is in the process of being finalized with Hyde County.
- The purpose of the Haul Road Agreement is to minimize impacts to the degree possible during construction deliveries and to ensure that the roads are maintained appropriately during construction and after construction is completed.
- The activities associated with construction will be completed in accordance with the Facility Permit granted by the PUC, Hyde County Conditional Use Permit and other required permits that have been obtained for the construction and operation of the project.
- The only approved activities occurring in proximity to the project are farming operations, grazing operations or those activities that have been approved by Hyde County.
- The limitations that are placed on the Project are described in the terms and conditions approved for the Project by the PUC and the Hyde County Conditional Use Permit.
- The Public Liaison for the Project during construction is Kenny Van Ballegooyen. Kenny will be located on the Project site during construction and is available to answer any questions or inquiries. He can be reached at (605) 359-1705 or kenny.vanballegooyen@engie.com.

On behalf of Engie North America, we are very excited to see the Triple H Wind Project move forward in Hyde County. If you have any questions regarding this notice, I can be reached by phone at 805-569-6185 or via email at Casey.Willis@engie.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Casey Willis". The signature is fluid and cursive, with some ink bleed-through from the reverse side of the page.
