To Whom It May Concern,

I am a landowner in the Sweetland Wind Farm-docket number(EL19-012) and I would like to take this opportunity to express my opinion on how beneficial I believe this project could be for the environment. We need to explore more means of power and this is a great way to do so. I also feel that this will be of great benefit to the surrounding areas as it will bring in revenue in many different ways to that small community and area. I would like for the PUC to approve Sweetland's application so that the project can receive its' permit.

Thank you,  
Aimee and Brian Jost
