Xcel Energy

Data Request No. 1-25

Docket No.: EL19-019

Response To: South Dakota Public Utilities Commission

Requestor: Eric Paulson

Date Received: September 4, 2019

---

Question:

Provide an estimated number of control events per plan year that are expected to occur.

Response:

We have assumed this question to relate to our AC Rewards product.

The number of control events in South Dakota has been relatively small in the recent past. However, we anticipate having more AC Rewards control events in order to calibrate program performance during the initial program launch. In future years, we expect to call at least one event for AC Rewards annually.
