Re: **Notification of Change in Participant Status**
Docket No. EL19-027 Application to the SD PUC
for a Facility Permit to Construct A
300.6 Megawatt Wind Facility

Dear Ms. Van Gerpen:

It has been determined that the participant status of two receptors set forth in the tables and maps of Crowned Ridge Wind II, LLC's April 7, 2020 pre-construction sound and shadow flicker attachments needs to be revised. Specifically, receptor CR2-D48 was signed as a participant on July 23, 2019, but was indicated as a non-participant in Attachments B and C of Crowned Ridge Wind II's pre-construction compliance filing. Further, receptor CR2-D208 was indicated to be a participant in these same attachments, but is a non-participant. Both receptors remain below the Commission-approved sound and shadow flicker thresholds, and, therefore, Crowned Ridge Wind II remains in compliance with the Commission's Final Order.

Attached are the revised sound and shadow flicker Attachments B and C, changing the participant status for receptors CR2-D48 and CR2-D208.

If you have any questions, please contact me.

Yours very truly,

LYNN, JACKSON, SHULTZ & LEBRUN, P.C.

Miles F. Schumacher
