RE: Glen Lowrie New Service Request

Dear Mr. Fergen,

Central Electric agrees to provide single phase electric service to Glen Lowrie's new drain tile pump located in the northeast quarter of section 9 of Township 101N, Range 60W of Davison County.

Central Electric has existing electric infrastructure located within 900 feet of the requested new service location. Central Electric would request a construction in aid contribution of \$1,743 as per the single phase line extension policy from Mr. Lowrie which includes the cost of metering.

If your company would be in agreement, as per this consumer request, to have Central Electric provide electrical service, please prepare the service territory exception agreement and other supporting documentation to facility approval by the SD Public Utilities Commission. Please contact me if you have any questions regarding this information.

Best Regards,

Ken Schlimgen  
General Manager
