Xcel Energy

Data Request No. 1-3

Docket No.: EL20-026

Response To: South Dakota Public Utilities Commission

Requestor: Patrick Steffensen

Date Received: October 27, 2020

Question:

Refer to the FCA alternative for Community Wind North explained on page 10 of the petition. Confirm that the revenue requirement recovered in the FCA would be identical to the revenue requirement recovered in the infrastructure rider.

Response:

Under each approach the Company is proposing to recover the proxy price for the actual energy output of Community Wind North. The recovery would be the same under each alternative, but the true-up would occur monthly in the FCA and annually in the Infrastructure Rider.

Preparer: Chris Shaw
