Re: Formal Exception for sub metering

Kristen & PUC:

We have an upcoming project with 5 tenants. We propose to have a utility meter for the entire facility and sub meters for each tenant. I got a verbal approval last year, but I would like to confirm in writing that it is acceptable to sub meter tenants as long as we bill proportionally. We would not be selling electricity or making any kind of profit, but simply taking the utilities bill and dividing it up by use.
